A RUSA BENEFICIARY INSTITUTION

IMPRESS/ICSSR SPONSORED **Two-Day National Conference**

ABOUT US:

G. S. College of Commerce & Economics, Nagpur is city's first Commerce College and through seven decades of academic excellence it has carved a niche for itself as a premier Commerce College in the region. It is known for its high academic standards, qualitative growth and ethical practices under the dynamic leadership of Shri Rahul Bajaj, President of Shiksha Mandal, Wardha, who has always inspired our ceaseless pursuit of excellence. It is reaccredited by NAAC as an 'A'-grade institution and today stands tall as the first Autonomous Commerce College in the RTM Nagpur University. It is all set to start two new UG courses viz. B. Com. (Honors) and B. Com. (F&A) from 2019-20 session.

Catering to the curricular needs of over 4000 students in various UG/PG/Junior-MCVC courses, the college has remained committed to its motto of "Industrious and Lion-hearted Men Generate Wealth" and is producing, year after year, the batches of competent young men and women who are contributing to the wealth of nation. Besides focusing on core academics through the courses of B.Com./B.Com.(C.A.)/BBA/M.Com./MBA, which have been thoroughly redesigned under Autonomy, the college also offers over a dozen value-addition courses like TCS' BPS, NSE's NCFM, Bajaj Finserv's CPBFI, ICMAI's CAT, Cambridge English's BEC, Tally Education's Tally and NISM courses. In addition, the college also offers guidance programmes for CA-CPT/CS-F, NET-SET, Competitive Examinations etc. as well as the internship programme under GS-SUN. The college's curricular output, which is reflected through consistent merit positions, medals and placements (average 200 per year for last five years) is equally matched by students' achievements in co- and extra-curricular activities in various intercollege/university level competitions.

In our efforts to add value to academics and to enlarge and enrich teacher-researcher community's horizons and to have meaningful discourses on issues related to Social Sciences, we are organizing THREE National Conferences in collaboration with ICSSR (Indian Council of Social Science Research) under its IMPRESS (Impactful Policy Research in Social Science) Scheme in the months of September-October 2019.

We intend to make these conferences really national in every sense of the word and aim to have in the end some authoritative statements vis-a-vis some policy formulation as is expected by ICSSR/IMPRESS. We have already identified and invited most qualified and illustrious Resource Persons from reputed organizations and institutions. They are indeed going to make these conferences fruitful experiences for all of us through their sheer presence.

We most sincerely invite all teachers, researchers, scholars in the fields of Social Sciences to these conferences including this conference on "Impact of Economic Reforms on the Growth of Indian Economy" and appeal to them for positive contribution in the form of quality research papers which shall be published in Conference Proceedings with ISBN Number.

ABOUT THE CONFERENCE

India has become one of the fastest growing economies of the world. Contributing to the acceleration on the reforms front, the government has adopted a holistic approach targeting structural, institutional, administrative, micro and behavioral reforms over the recent years.

A series of structural economic reforms including the crackdown on black money and the use of technology for delivery of public services by the government, which coincided with a natural explosion in the digital economy, have integrated more people into the formal financial system, boosted cashless transactions and added more taxpayers. The government also encourages start-ups and cashless payment modes, which has also given fillip to the growing digital economy.

Structural macro reforms such as GST, Skill India, Make in India, fuel price deregulation, etc . have the potential to pave the way for boosting India's potential GDP growth.

Thus, there is a broad series of reforms including financial sector reforms, increased globalization and widening and deepening of product and financial markets, enhancing transparency through digitalization.

But these reforms seem to have failed to bring about balanced economic development in all the sections of the society. Various factors such as social setup, domestic conditions, political upheavals, formulation and problems in implementation of policies etc. greatly affect the implication of economic reforms and, in turn, the economic development.

The delegates and researchers coming from various parts of the country are expected to suggest some concrete and practical measures in this regard. Since ICSSR/IMPRESS entails policy-making, it is imperative that the delegates and researchers have to both identify various dimensions of economic reforms and suggest plausible measures along with its implementing mechanism leading to the multi-dimensional development of the economy.

On the basis of the papers received from the delegates on various themes and sub-themes as enumerated below, the conference proposes to prepare an exhaustive Report and submit it to relevant agencies so that some policy decisions could be made on the basis of the inputs. Thus the delegates get to participate in the process of policy-making in a big or small way, depending on the inputs.

The Organizing Committee appeals to all faculty members, researchers and students to be the part of this conference and contribute to the all-round development of economy.

OBJECTIVES OF THE CONFERENCE

- 1. To provide a platform to the policymakers/ academicians/ researchers to explore various avenues and issues related to economic reforms in India.
- 2. To throw light on opportunities and challenges posted by the reforms to Indian Economy.
- 3. To study the impact of Economic Reforms on various stakeholders on Indian Economy.

MAJOR THEMES:

- 1. Structural Reforms in Indian Industry
- 2. Transformation of Indian Economy Post Reforms
- 3. Financial Sector Reforms as Drivers of Indian Economy
- 4. Economic Reforms as Growth Engine for Rural Development
- 5. Impact of Taxation Reforms on Indian Economy
- 6. GST as important Indian Tax Reform
- 7. Impact of Foreign Trade Policy on Indian Economy
