ACKNOWLEDGEMENT

We take this opportunity to express our deep gratitude and whole hearted thanks to project guide Prof. Pravin Yadao, Coordinator for his guidance throughout this work. We are very much thankful to him for his constant encouragement, support and kindness.

We are also grateful to our teachers Prof. Rahul Tiwari, Prof. Sushma Gawande, Prof. Preeti Rangari, Prof. Prajkta Deshpande and Prof. Haresh Naringe for their encouragement, help and support from time to time.

We also wish to express our sincere thanks to Principal Dr. N. Y. Khandait for providing us wide range of opportunities, facilities and inspiration to gather professional knowledge and material without which this project could not have been completed.

2020-2021**

1. Introduction: (Write 4 to 5 lines)

Domain name: Trend Opinions

This project gives Opinions to wear attires and cloths according to the user.

It even shows and suggests the trend wear according to the season (summer, winter autumn etc.)

This website suggests hair cut for the user

It also suggests hair styles

2. Objectives of the project: (Write only 5 points)

The objective of this website is to suggests best attires and clothes according to the users requirement

It recommends the best trend suiting the user

The user needs to upload his picture, measurements required (weight, height, waist etc.)

3. Project Category: _____Website_____

4. Tools/ Platform/ Languages to be used: _Java script, word press, HTML, Java_____

5. Scope of future application: (Write 4 to 5 points)

This suggests the user trendy wear

It fulfills the user's requirement for comfortable clothes

It manages to give the user many trends rolling in fashion

The user doesn't need to take health risk by going in the market. Trends and requirements related to clothing are fulfilled online

Content

Trends Opinion

Introduction : Trends Opinion is a website, offering various options for the user or the customer to select from.

Objective; The purpose of this site is to offer the customers with a much variety of clothes. As per the gender of the user a variety of clothing according the season is available on this site.

Preliminary System Analysis:

- Preliminary Investigation:
We checked online ecommerce platforms on the internet and understood its working. However, The process is long on selection of the products and then adding it to the cart. The previous process is to create a user account. The portals accept various payment methods. Major ecommerce platforms like flipkart and Amazon has an independent working modules with various custom features.
- Present system in use :
Nearly every imaginable product and service is available through e-commerce transactions, including books, music, plane tickets, and financial services such as stock investing and online banking.
- Flaws in present system : We did not find any technical flaws in the systems we researched and studied as a web developer as major professional websites are technically high end. However, We found the flaw that all products are displayed in a mix category of products. The products are not sorted according to their categories.
- Need of a New System : We analysed that a ecommerce platform with a functionality to select products in respect to

the category of the products. So it becomes easy for the user to select the products and browse the products as per his seasonal requirements. So we have focused on making this specific module that will be added in the website for ecommerce module.

Hardware For E-Commerce:

CPU: for web 1,6 GHz , for web and database 4 x 1,6 GHz CPU.

RAM: 4GB.

Minimum database space: 10GB.

CPU: Quad 2GHz+ CPU.

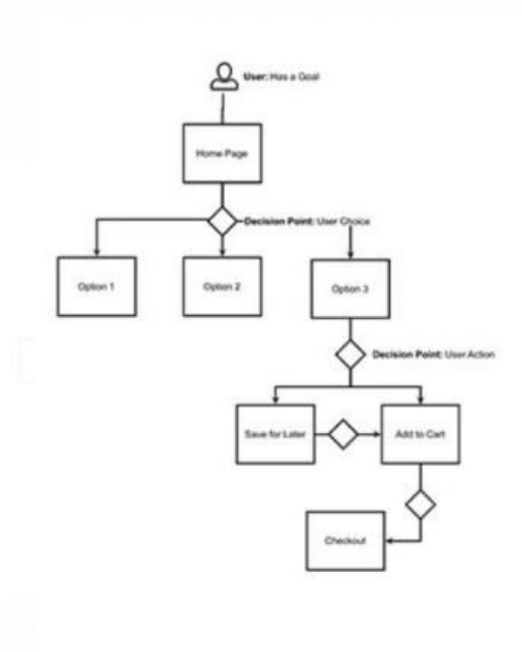

RAM: 6GB.

Minimum database space: 10GB.

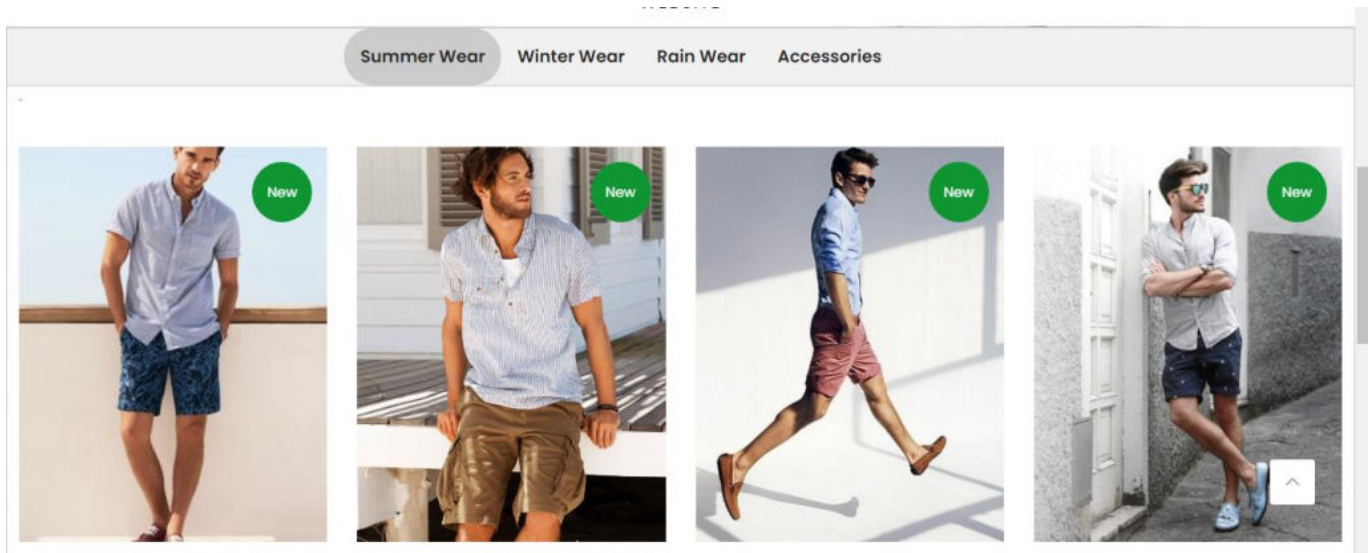

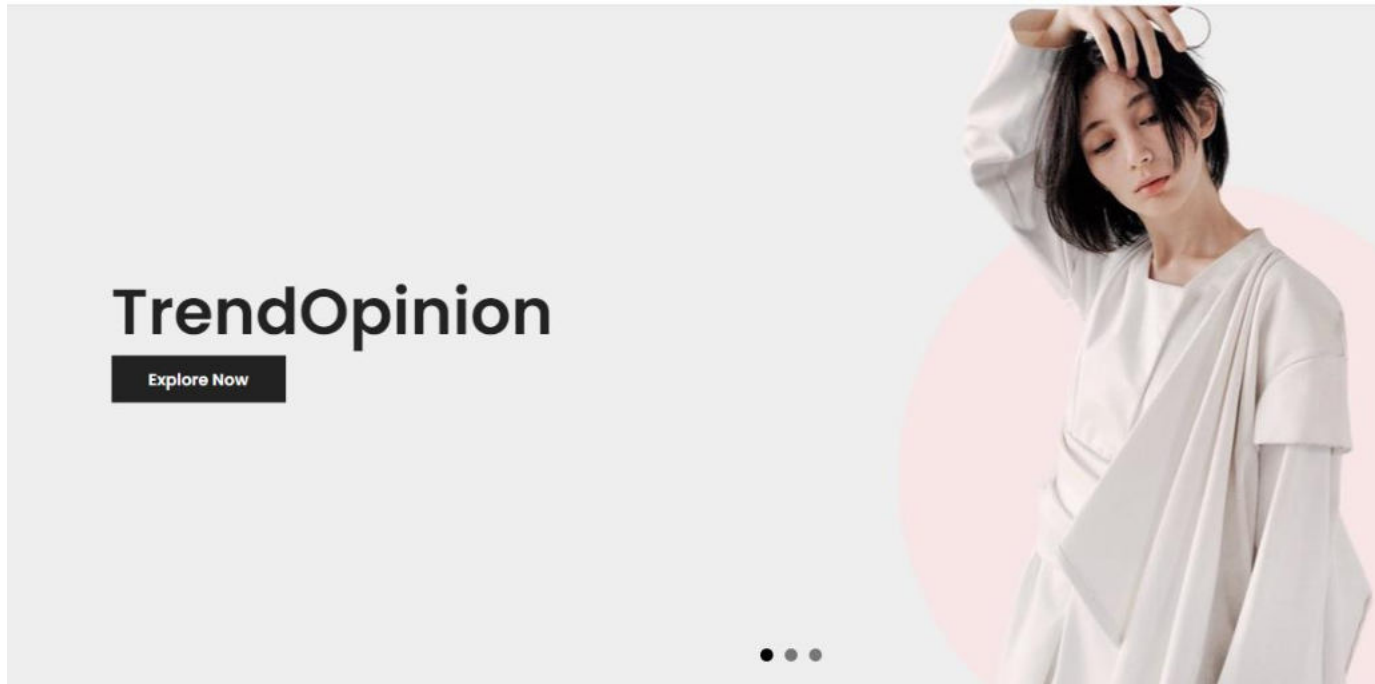

Software requirements: Sublime Text Editor

Product Image Resizer

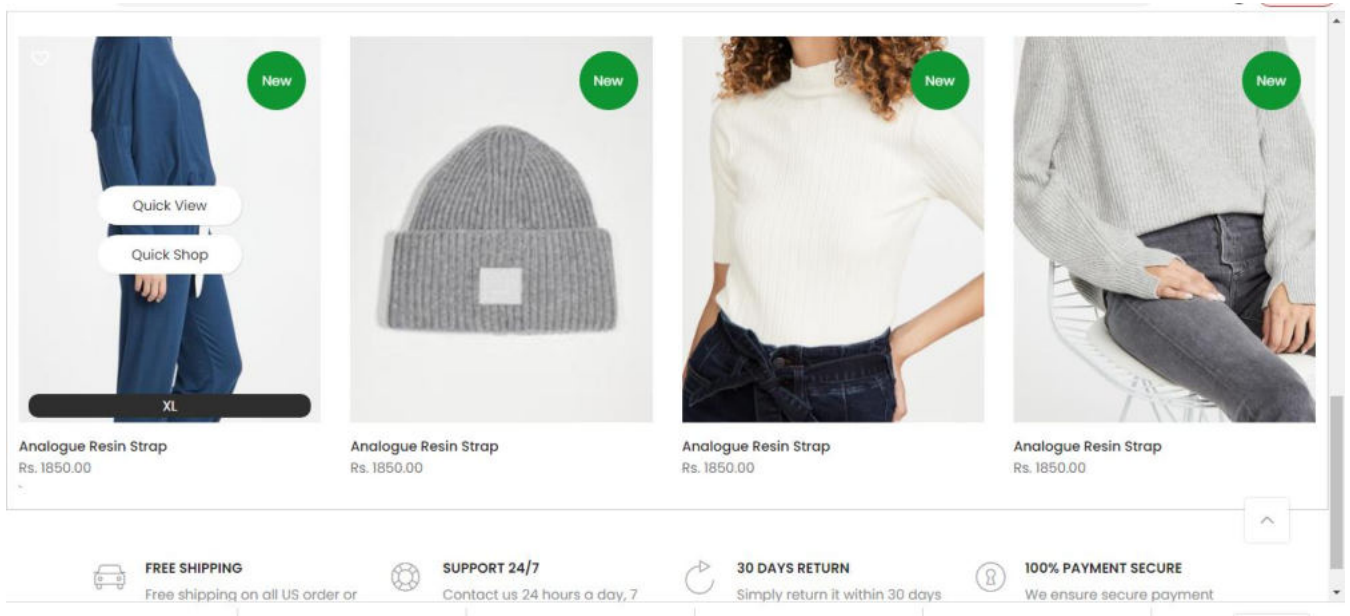

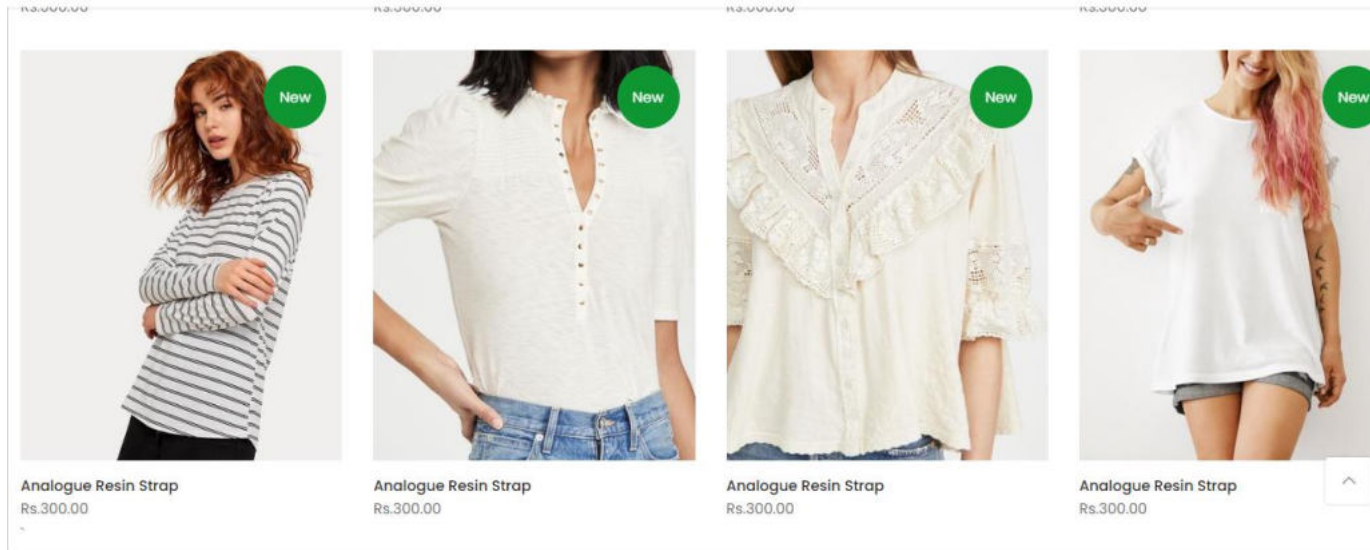

Data flow diagram:

Input and output screen:

Gender wise selection of clothes

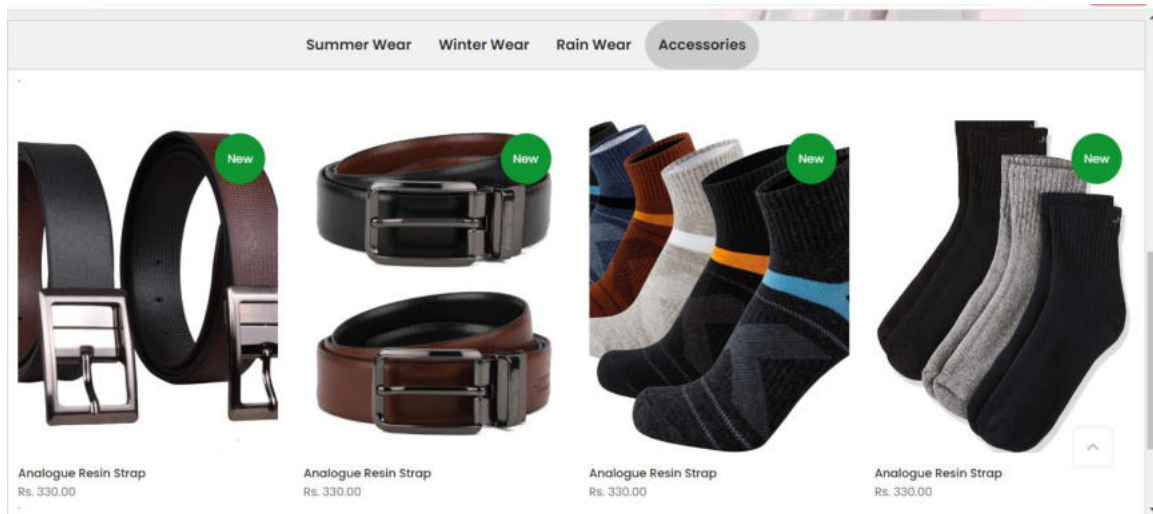

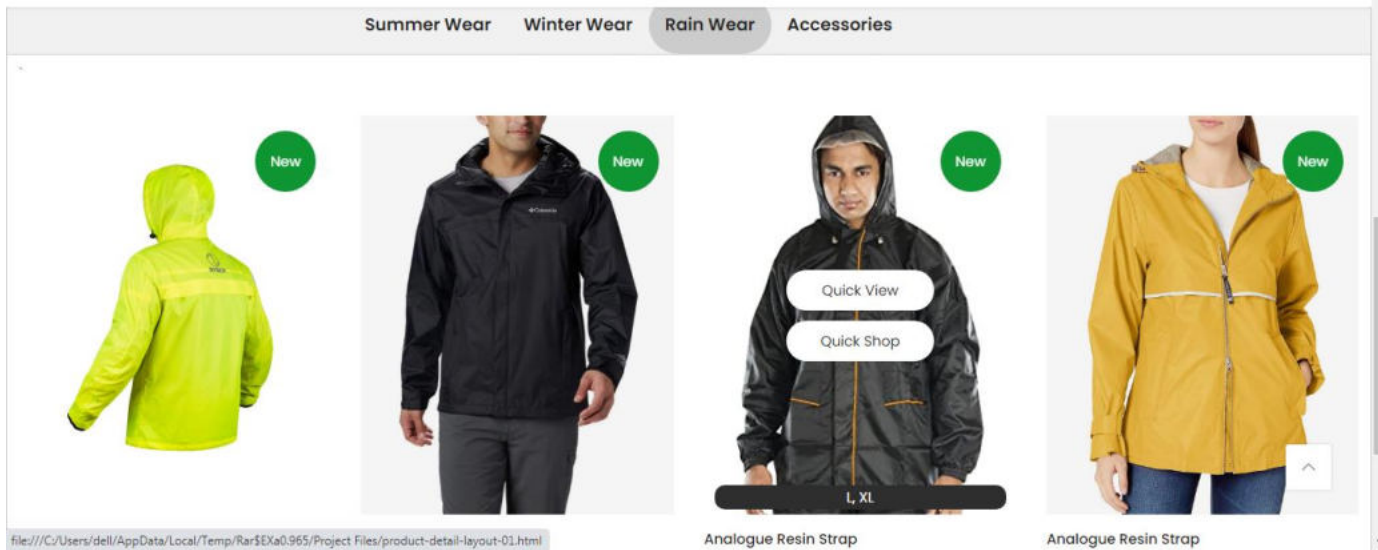

Season selection

Sumer wear

Winter wear

Rainy Season war

Accessories selection

- Bets
- Socks

Variety of products available to select from

Free shipping and delivery of the product selected

Delivered on a quick go

Testing & Validation Checks:

Add screenshot of Web page display in this section. Click on summer wear and take a screenshot. Likewise do it for all the sections

System Security :

The project is currently in offline mode so security is not a major concern but once we move it on live server. We shall integrate secure socket layer (SSL) and also ensure to follow all the security protocols for the website.

Future scope :

The web ecommerce portal can be further developed to create more modules and functionality based on user choice and user behaviour on the internet. We can also implement artificial intelligence in the portal for recommending user behaviour related products.

Conclusion :

Hence, we have successfully created a ecommerce portal with specified categories for product selection as per the requirement of the user. We have added various categories for the users to select based on his or her choice.

Bibliography :

Add amazon.com

Flipkart.com

Ecommerce Websites
