In 2019-20 academic session among the various activities that were held with the help of ICT, included online teaching on Zoom platform. This was a result of Covid-19 related sudden lockdowns that were declared in March 2020. The Zoom classes were held to complete the remaining syllabus in B.Com and M.Com classes. In M.Com II (E) classes, PPT was also prepared on the broad them of 'Foreign Investment' for teaching and as a reference study material for the students.

In addition, an online interaction with the mentees was arranged to communicate with them in general and also to apprise them with the pitfalls of rampant use of online tools. The outcome of this activity was to drive home the awareness of cyber security among the mentees.

Further, to create awareness on the exponentially increasing global population and the need to contain global population, a video was crated and shared on the world population day with students from all the classes taught in the session of 2019-20.

Board Game on Cash Flow Analysis

The students under the guidance of Prof. Pallavi S. prepared a board game on 'Cash Flow Analysis' a topic in the subject Management Accounting. This made the topic interesting, students involvement increased and they were able to make calculations very easily. This helped them to gain an in-depth understanding and practical application of the topic. Later on, this board game was exhibited at Comnext in Commerce Model Exhibition.

Students were taken to the Seminar Hall and ICT classes were conducted for them. Teaching – Learning becomes more effective with the use of animated videos, ppt, etc. Students are able to grasp the difficult concepts & calculations easily. They found it very interesting to understand topics involving mathematical calculations: like interest, investment, cost price, profit, etc.

Tutorials are used throughout the session for knowledge dissemination. A “tutorial” is a method of transferring knowledge and may be used as a part of a learning process. More interactive and specific than a book or a lecture; a tutorial seeks to teach by example and supply the information to complete a certain task.
