ACKNOWLEDGEMENT

We take this opportunity to express our deep gratitude and wholehearted thanks to project guide Prof. Pravin Yadao, Coordinator for his guidance throughout this work. We are very much thankful to him for his constant encouragement, support, and kindness.

We are also grateful to our teachers Prof. Rahul Tiwari, Prof. Sushma Gawande, Prof. Preeti Rangari, Prof. Prajka Deshpande, and Prof. Haresh Naringe for their encouragement, help, and support from time to time.

We also wish to express our sincere thanks to Principal Dr. S. S. Kathaley for providing us with a wide range of opportunities, facilities, and inspiration to gather professional knowledge and material without which this project could not have been completed.

Shailendra Singh

Gaurav Kshirsagar

INTRODUCTION

As we all know India is a country of unity in diversity. The mountain ranges, river-irrigated areas, rivers, streams, forest, and desert all have beautified India with their outstanding diversity amongst people of various races, castes, creeds, religions, and languages each state and region has its uniqueness International local travellers visitors love this variety Colours, culture, and the climate, etc. Dance & Music Colourful festivals and beautiful handiworks spell on the national and international visitors. The beaches of Goa, the backwaters of Kerala, and snow-clad mountains of Himachal, the sands and, & lakes of Rajasthan, the world culture sights of Delhi, etc are the symbol of the diversity of our nation. This colorful of a country makes our country a major attraction of tourists that is beneficial for the Economy, and prosperity of the country.

However, many of the differences in religions, traditions, languages, and cultures have become so intense that they have assumed dangerous proportions for National Unity and safety. We have to provide the best facilities and safety to foreign tourists and maintain peaceful and amicable coextensive people of different ethnicities and cultures. Without peace, our diversity is of no use. It is the common duty of the government and the people of India to keep the beautiful diversity of our nation secured in the card of unity intact.

Meaning of Unity in Diversity:

The term unity in diversity relates to the state of togetherness or integrity despite the presence of infinite diversity. Unity in diversity is based on the concept that the individual has variations in physical qualities, skin color,

caste, creed, cultural and religious traditions, etc. are not seen as a dispute. Rather, these differences are viewed as varieties that improve society and the nation as a whole. In India, the national unions only can be the establishment of a strong, unified, and prosperous Indian, usually in the days of extremism and terrorism. Mahatma Gandhi sacrificed his life for communal unity.

Though there are different communities like Bengalis, Gujaratis, Punjabis, Maharashtrians, Tamilians, etc. the facts remain that despite divisions and differences, caste or creed, we have lived together for thousands of years. Though, there are differences between the Hindu and the Muslim communities concerning their cultures, ideology, and rituals. They live together and have a deep-rooted respect for each other. The Hindus send greetings to their Muslim friends at the time of their Muslim festivals such as Eid, Muharram, etc. Likewise, Muslims also send wishes or greetings to their Hindu friends at the time of Hindu festivals such as Diwali, Durga puja, etc. This describes the majority of unity among India's Hindus and Muslims.

On many topics, they influence one another and are motivated by the ideals of Oriental civilization. India is a large country. Different regions observe climate changes. The spoken language of one state is quite foreign to other states. They wear different types of clothes, celebrate different festivals, and play varied religious rituals. People belonging to different cultures belong to different religious beliefs.

Origin of Unity in Diversity:-

The term unity of diversity signifies the unity between people with different cultural, and religious faiths, social statuses, and other demographic variations. Since ancient times, this expression has had its organizations, and various political and social assemblies use it to show unity among individuals or societies. This is an ancient expression that was earlier used by some societies in North America and China, around 500 BC. Unity in India is the best model of unity in diversity because people living with various religions and cultures follow the same laws as laid down by the Constitution of India.

INTRODUCTION TO EBSB:-

Ek Bharat Shreshtha Bharat program aims to enhance interaction & promote mutual understanding between people of different states/UTs through the concept of state/UT pairing. The states carry out activities to promote a sustained and structured cultural connection in the areas of language learning, culture, traditions & music, tourism & cuisine, sports, and sharing of best practices, etc.

BACKGROUND AND NEED:

India is a unique nation, whose fabric has been woven by diverse linguistic, cultural, and religious threads, held together into a composite national identity by a rich history of cultural evolution, coupled with a freedom struggle that was built around the tenets of non-violence and justice. The

spirit of mutual understanding amidst a shared history has enabled a special unity in diversity, which stands out as a tall flame of nationhood that needs to be nourished and cherished into the future.

Time and technology have narrowed down distances in terms of connection and communication. In an era that facilitates mobility and outreach, it is important to establish cultural exchanges between people of different regions, as a means to further human bonding and a common approach to nation-building. Mutual understanding and trust are the foundations of India's strength and all citizens should feel culturally integrated into all corners of India. Students from the northeast, for example, should not feel like 'strangers in a strange land' when they arrive in Delhi, and a person from Uttarakhand should not feel like an outsider in Kerala.

CONCEPT OF EBSB:

The idea of a sustained and structured cultural connection between people of different regions was mooted by Prime Minister Shri Narendra Modi during the Rashtriya Ekta Divas held on 31st October 2015, to commemorate the birth anniversary of Sardar Vallabhbhai Patel. Hon'ble Prime Minister propounded that cultural diversity is a joy that ought to be celebrated through mutual interaction & reciprocity between people of different States and UTs so that a common spirit of understanding resonates throughout the country. Every State and UT in the country would be paired with another State/UT for some time, during which they would carry out a structured engagement with one another in the spheres of language, literature, cuisine, festivals, cultural events, tourism, etc. For example, Andhra Pradesh is

paired with Punjab During this period, Punjabis would attempt to learn keywords in Telugu, a few Telugu books would be translated into Punjabi & vice-versa, Andhraites would hold food festivals offering Punjabi dishes, Punjabis would perform Andhra folk dances, while Andhraites would perform Bhangra at staged events, etc. This pattern of cultural adoption of the partner State/UT would be followed by all states and UTs.

HOW EBSB HAS BEEN TAKEN AHEAD? :-

States/UTs in India have been paired with each other for a fixed period. The paired States/UTs signed MoUs with each other, delineating a set of activities that they would carry out. An activity calendar for each pair was prepared through mutual consultation, paving the way for a systematic process of mutual engagement. Such interaction between different segments of the population of each pair of States /UTs at the cultural level generated the vibrance of understanding & appreciation amongst the people and forged mutual bonding, thus securing an enriched value system of unity in the nation. The pairing of States/ UTs is available on the website.

Introduction to the EBSB Club of College:

As we all know under the EBSB program initiated by our Prime Minister our Maharashtra state partnered with Odisha state. So basically we will go to share our culture with Odisha students and people there and will adapt and learn new things and will try to know everything possible information about Odisha state for example There Culture, Heritage, Food Culture, Eminent people, and the most important thing is to try to learn their Odia language which is most helpful to learn other things.

EBSB club provides a place for students interested in learning new things about other states and having a passion for unity in diversity. This website will help students who try to know more about the state currently we are partnered with. For example, currently, we are partnered with Odisha State so the information related to the Odisha state is available on the site which we developed under this project.

Objectives

1)To Develop the website at the local level:

We aim to make a website for Ek Bharat Shreshtha Bharat Club of College which provides information about the State with which we are partnered. We aim to impart and provide basic knowledge about the culture of Odisha and detailed information about the state because We are partnered with that state under the EBSB program initiated by the central government to increase the importance of unity in diversity.

2)To give Unity in diversity:

There is a diverse culture in India, this website will make understand students know the culture of Odisha in detail which leads to the upgradation of their knowledge.

3)To know about Odisha by using every aspect:

This Website helps the user and students of the college to know every aspect of Odisha such as their culture, tradition, Food, Architecture, music, dance form, etc. This website helps the user to know it very well.

4)To provide a Platform to Students:

This EBSB Club conducts various programs in which the students can take part into it. They can participate in and learn languages and many more things.

5)To Facilitate Registration Facility in one place: To provide the registration facility to students and reduce the overload of sending the Google form every year in the various groups again and again. With the help of this website, we aim to provide this facility easily so that students can register and no need to wait for the Google form every year Google form.

6)Make Awareness about the EBSB Program: This website gives information about the EBSB Club and the programs which were done in the college which helps the students to know more about Odisha and its culture.

Preliminary System Analysis

1)Preliminary Investigation:

Preliminary Investigation refers to the collection of information that guides the management of an organization to evaluate the merits and demerits of the project request and make an informed judgment about the feasibility of the proposed system. This sort of investigation provides us with a thorough picture of the kind of software and hardware requirements that are most feasible for the system, plus the environment in which the entire project has to be installed and made operational.

The preliminary investigation sets the stage for gathering information about the current problems and existing information systems. This information is then used in studying the feasibility of possible information systems solutions.

Gathering Information

Collecting or Gathering information or gathering information is one of the most important stages of developing any system. To develop our Website we collect the information by using various sources.

a) Department of EBSB: It's the department under which all activities of Ek Bharat Shrestha Bharat activities are conducted all the activities are managed by the department

As our website is totally on that club that why we discuss the requirements needed by the department with the department head.

b) Referring Books & Magazines: After the discussion about EBSB Club. We came to know that we are partnered with Odisha State means we

have to share our culture with them and they have to share their culture with us.

Our basic aim to develop this website is to provide information about Odisha State to students in one place to collect information about the state we refer to various books and magazines.

c) Visiting the related websites: To gather information in detail about the state based on various aspects. We visited various websites and authenticate all the information and select quality information to develop the website.

We have visited various Blogs, Another Informative website, Official Website of the Government to fulfilled our need for the required data.

d) Discussion:- We have to discuss with the concerned teachers about its procedure and discuss various ways through which we can develop our website efficiently.

e) Knowing various programming languages: Whenever you start to plan different websites you must know which programming language you know very well or in which you can develop your project efficiently

There are various programming languages available to develop the website. Such as JAVASCRIPT, HTML, CSS, etc.

There are mainly two types of Websites i.e., static and dynamic.

A static website which not have the facility to change the data after completion of the site which means hosting the site. It does not have any connectivity with the database.

Dynamic Website is the opposite it has backend support of database. After knowing about the basic information of each language we choose HTML, CSS, and JavaScript to develop our website and for connectivity with the database.

e) Knowing Basic System Requirements to Develop the Website:

After knowing about the languages through which we can develop the website.

We investigate the basic system requirement which is required to develop the website.

2)Present system in use:

This present system is used to provide information related to the websites. This system has to be maintained as per the user's need and he can do changes or updates from time to time as per his requirement. The current system is outdated so the user wants only the updated version. Our website provides brief information about Odisha, its culture, etc.

In Today's Scenario, there is no such type of EBSB website that gives detailed information by considering all the aspects of any state.

There is only one website that provides information about the BSB program initiated by the Central Government, and a list of states partnered with each other provides information about what is EBSB Program.

3)Flaws in the present system:

Presently only one website is available which gives information about the “Ek Bharat Shreshtha Bharat Programme” and does not provide detailed information about every state in detail. It just provides information about the program and the names of the states partnered with each other.

4)Need for a New System:

This website is developed in such a way that it can help to overcome all the flaws which are in the current system. As we mention that the flaws in the Present System because of that we have to develop the College EBSB Club Website so that students can the information about Odisha state in detail in one place and it facilitates students who have completed the registration process in College EBSB Club Website.

To impart the culture of Odisha to students we must need a website that provides all information to the student in one place at the local level

5)Feasibility Study

Introduction:- A feasibility study is the first item on a project manager's agenda before approving the start of a project. Although they are not needed to carry out a feasibility study themselves, project managers utilize it as a roadmap to steer the project and gain a complete grasp of its characteristics, business objectives, and risk considerations.

Failure can indeed be terrifying. Nevertheless, beginning a challenging, big project that will have an impact on your business may be exciting.

What is Feasibility Study?

A feasibility study is a thorough analysis of a project proposal that considers all elements essential to success to determine the project's chances of success. ROI, or the projected earnings from the project, can be utilized to quantify business success in general.

A proposed strategy or project's viability is assessed within a feasibility study. Also, a project's or business venture's viability is assessed as part of a feasibility study to ascertain its likelihood of success.

A feasibility analysis, as its name suggests, is used to assess an idea's viability, such as confirming that a project is both legally and technically possible and also economically reasonable. It tells if, in particular conditions, it may or may not be possible to complete a project. There are several potential causes for this, including the need for excessive resources, which not only hinders them from executing other jobs but can also cause more expense than a business would recover by taking on an unsuccessful project.

A well-planned and effective study can provide a historical background of the company or project, including descriptions of goods or services, accounting statements, information about implementations and management, financial data, marketing policies, research, legal needs, and tax duties. Such analyses often come before technical creation and project execution.

Types of Feasibility Studies: Since a feasibility analysis assesses the project's likelihood of success, perceived impartiality is a crucial element in the legitimacy of the assessment for interested investors and financing

institutions. A feasibility study can have five different areas, each of which analyses a different topic. These are as follows –

1. Technical Feasibility:

The technological resources that the organization has access to are the main focus of this examination. It aids companies in determining if the technological resources are enough and if the tech team has the skills necessary to turn concepts into functional systems. The assessment of the proposed system's technical needs, including its software and other components, is part of the technical feasibility process.

2. Financial Feasibility:

Before allocating financial resources, this evaluation often includes a cost or benefit assessment of a project to help businesses examine the feasibility, costs, and advantages related to a project. Additionally, it improves the credibility of a project and serves as an impartial project evaluation, assisting decision-makers in identifying the favorable economic advantages that the project proposal would bring to the business.

3. Legal Feasibility:

This analysis looks at any potential conflicts between the planned project and applicable laws, such as zoning regulations, data protection laws, and social media usage regulations. Let's imagine that a company wishes to build a brand new office space in a particular area. A feasibility study can find that the preferred site of the organization is not permitted for that particular kind of enterprise. Realizing that their endeavor was unworkable from the start, that company has just saved much time and effort.

4. Operational Feasibility: This evaluation entails researching to determine whether and how effectively the needs of the organization can be satisfied by the project's completion. Additionally, an operational feasibility study evaluates how the planning of a project fulfills the needs found during the system development process' requirements analysis phase.

5. Scheduling Feasibility:

The most crucial evaluation for a project's success is its scheduling feasibility. After taking into account the organization's capabilities, it predicts the amount of time required to execute the project and assesses if that timeframe is accessible.

Setting deadlines and estimating the amount of time it will take to complete the project is crucial for its success. Next, this study helps analyze how the project's schedule fits with present business practices, including demand forecasting and production plan, among numerous other factors.

We did the PI by using different aspects according to our project which is explained below in detail

Knowing various programming languages: Whenever you start to plan different websites you must know which programming language you know very well or in which you can develop your project efficiently

There are various programming languages available to develop the website. Such as JAVASCRIPT, HTML, CSS, etc.

There are mainly two types of Websites i.e., static and dynamic.

A static website which not have the facility to change the data after completion of the site which means hosting the site. It does not have any connectivity with the database. Dynamic Website is the opposite it has backend support of database. After knowing about the basic information of each language we choose HTML, CSS, and Java JavaScript op our website and for connectivity with the database.

6)Project Category:

Website of the Department of EBSB Club which is a dynamic website developed using HTML, CSS, PHP, JavaScript, and MySQL.

HTML:

HTML is an acronym for Hyper Text Markup Language used for creating web pages and web applications. Let's see what Hypertext Markup Language means, and Web pages.

Hyper Text:

Hypertext simply means "Text within Text." A text that has a link within it, is a hypertext. Whenever you click on a link that brings you to a new webpage, you have clicked on a hypertext. Hypertext is a way to link two or more web pages (HTML documents) with each other.

Markup language:

A markup language is a computer language that is used to apply layout and formatting conventions to a text document. Markup language makes the text more interactive and dynamic. It can turn text into images, tables, links, etc.

Cascading Style Sheets (CSS):

It is a style sheet language that is used to describe the look and formatting of a document written in a markup language. It provides an additional feature to HTML. It is generally used with HTML to change the style of web pages and user interfaces. It can also be used with any kind of XML document including plain XML, SVG, and XUL.

CSS is used along with HTML and JavaScript in most websites to create user interfaces for web applications and user interfaces for many mobile applications.

JAVASCRIPT:

JavaScript is a very powerful **client-side scripting language**. JavaScript is used mainly for enhancing the interaction of a user with the webpage. In other words, you can make your webpage more lively and interactive, with the help of JavaScript. JavaScript is also being used widely in game development and Mobile application development.

Software and Hardware Requirement Specification

Following are the Software and Hardware specifications that are required to develop this project are as follows:

Software specification:-

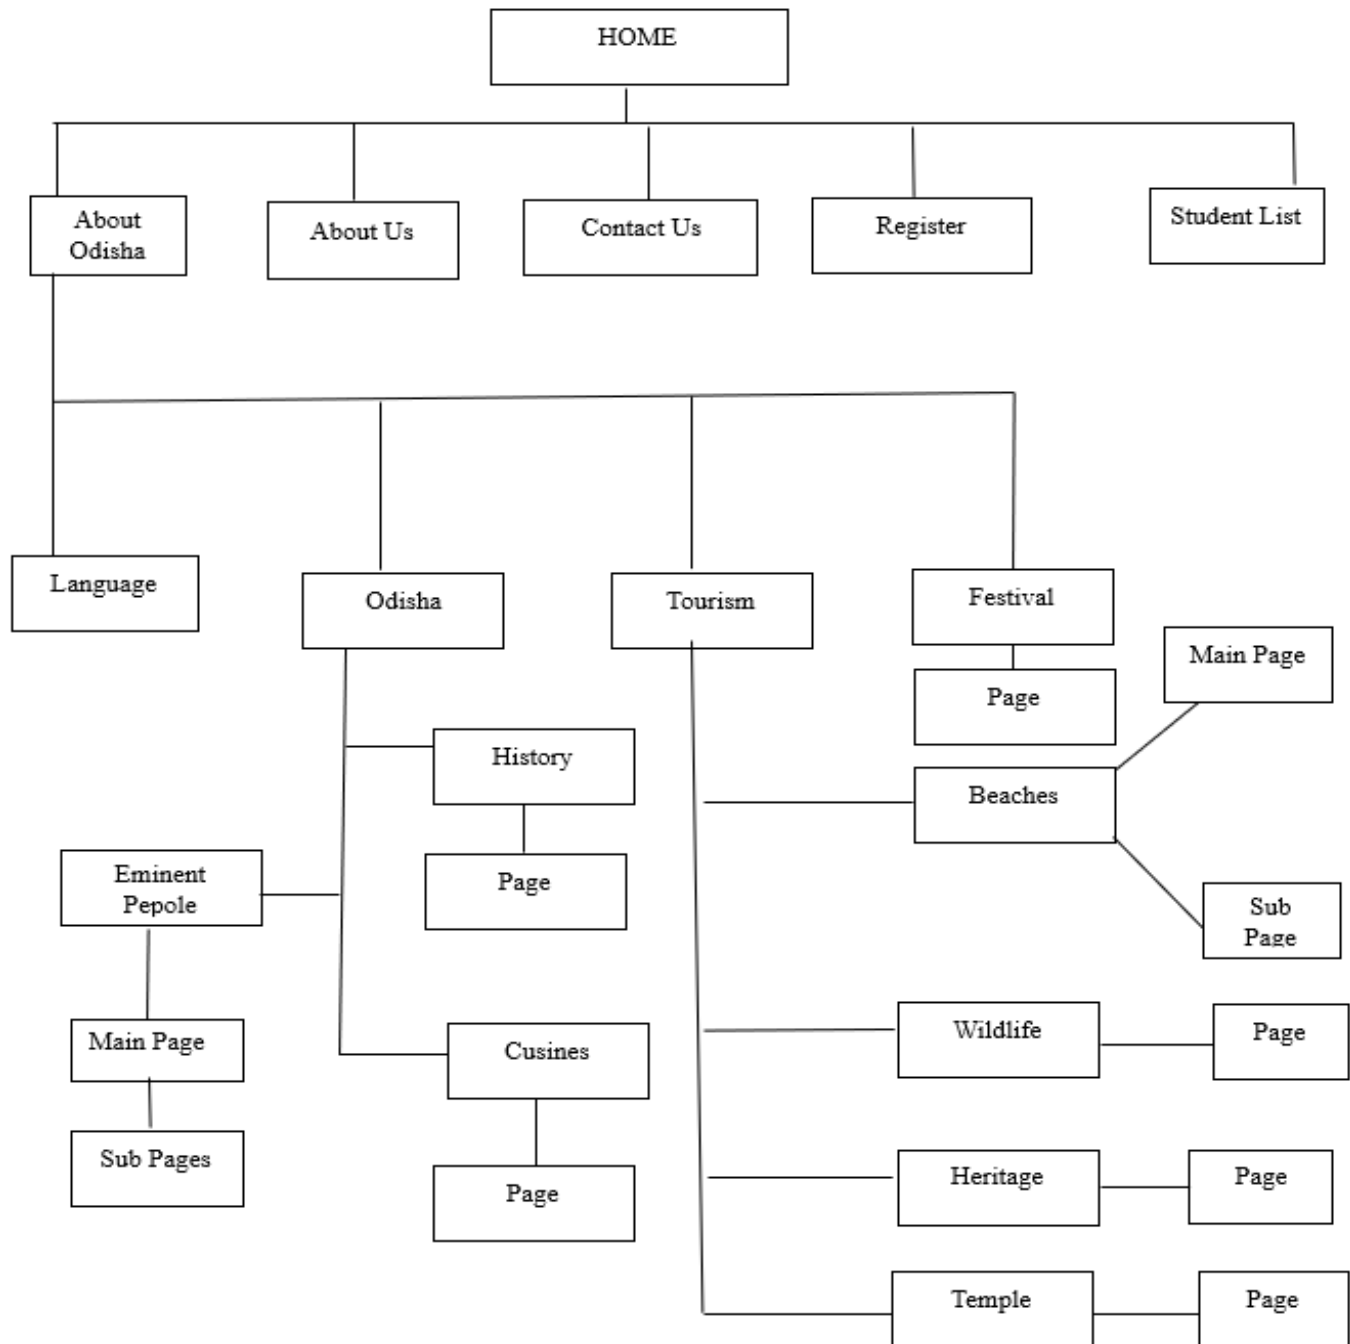

- a) Language Used (Front End) – HTML, CSS, PHP, JavaScript.
- b) Back End – MySql
- c) Web Browser – Brave, Google Chrome, etc.
- d) Text Editor used – Visual Studio Code.

Hardware specification:-

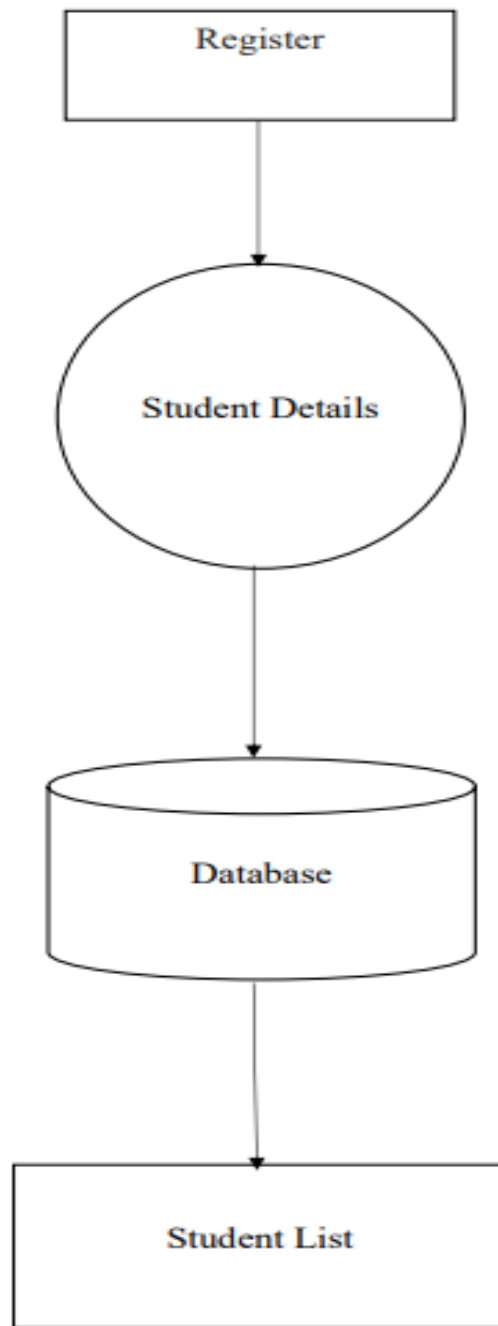

- a) Processor: AMD Ryzen 5
- b) Ram: 4Gb
- c) HDD: 1TB
- d) SSD: 256Gb

ODISHA : THE LAND OF GOD

The narrow, level coastal strip, including the Mahanadi River Delta supports the bulk of the population. The interior of the state is mountainous and sparsely populated. Deomali at 1672 m is the highest point of the state. Odisha is subject to intense cyclones. The most intense one, in October 1999, tropical cyclone caused severe damage and some 10256 deaths. Odisha is home to the Hirakud Dam, near Sambalpur the longest earthen dam in the world.

Odisha has several popular tourist destinations. Puri, Konark & Bhubaneswar are known as the Golden Triangle of Eastern India. Puri, with the Jagannath

Home	Odia (ଓଡ଼ିଆ)	Written Odia	Odia alphabet	Consonants	Some conjunct consonants	Numerals
------	--------------	--------------	---------------	------------	--------------------------	----------

Oriya Language

Odia (ଓଡ଼ିଆ)

Odia is an Indo-Aryan language spoken by about 40 million people mainly in the Indian state of Odisha, and also in parts of West Bengal, Jharkhand, Chhattisgarh and Andhra Pradesh. Odia is one of the many official languages of India. It is the official language of Odisha, and the second official language of Jharkhand. It is also designated as a Classical Language in India as it has a long literary history. Odia is closely related to Bengali and Assamese. Odia is also known as Oriya, and Odisha as Orissa, however Odia and Odisha are now the preferred names in English as they are closer to their native names: ଓଡ଼ିଆ (oḍiā) [ɔd̪iː] and ଓଡ଼ିଶା (oḍiśā) [ɔd̪iʃaː].

Written Odia

The Odia script developed from the Kalinga script, one of the many descendents of the Brahmi script of ancient India. The earliest known inscription in the Odia language, in the Kalinga script, dates from 1051. The curved appearance of the Odia script is a result of the practice of writing on palm leaves, which have a tendency to tear if you use too many straight lines..

Muchalinda Odisha

Traces its history from Gupta Period, Muchalinda is a Buddha Monastery in Odisha which is located near the confluence of the Magar and Ang Rivers in Gaisilat Block, Padmapur Subdivision in Bargarh district. The statue of Muchalinda was first discovered by an art historian, Charles Fabri in 1961. In 1978, an excavation project was carried out here by P.G. Department of History, Sambalpur University. However, it is said that this popular heritage site in Odisha was once had a multi-storied structure. But due to brick robbing, most of the foundation plinths have been destroyed. The excavation also discovered the traces of walls of the chambers and cells of the Bhikshus, chaitya hall, and mendicants. Along with that, two Buddha idols were also recovered on a small stone called mandapa. These idols include the statues of a Muchalinda Buddha and Buddha at Sarnath while giving the homily. As per Buddhist scripture, Vinaya Pitaka, the serpent King Muchalinda protected Lord

Bali Yatra

Finding its origin in the year 1962, Ushakothi wildlife sanctuary offers a soulful experience to wildlife lover "Badrama Wildlife Sanctuary", which is also known as "Ushakothi Sanctuary" is situated at a distance of 37 Km. from the district headquarters of Sambalpur District towards Deogarh on National Highway-6. The sanctuary comprises parts of Badrama Reserve Forests, Ushakothi Reserve Forests, Binjipali Reserve Forests and Additional Kansar Reserve Forests. The Sanctuary is characterized by the presence of Moist Sal Forests, Sal dominated mixed deciduous Forests and bamboo forests. The Sanctuary forms a significant part of the Sambalpur Elephant Reserve.

Deomali at 1672 m is the highest point of the state. Odisha is subject to intense cyclones.

The most intense one, in October 1999, Tropical Cyclone caused severe damage and some 10256

deaths. Odisha is home to the Hirakud Dam, near Sambalpur the longest earthen dam in the world.

</p>

</div>

<div class="caption">

<p>Odisha has several popular tourist destinations. Puri, Konark & Bhubaneswar are known as

Golden triangle of eastern India. Puri, with the Jagannath temple near the sea

(famous for Rath Yatra or the Car Festival), and Konark, with the Sun Temple, are

visited by thousands of tourists every year. The Jagannath Temple of Puri, the Konark Sun

Temple, the Lingaraj Temple, Udayagiri and Khandagiri Caves, Dhauligiri of Bhubaneswar,

Ashoka's famous Rock Edict at Jaugada near Berhampur city and the Barabati Fort of Cuttack are

important in the archaeological history of India.</p>

</div>

<div class="heading">

<h1>Odisha in pre-historic age</h1>

</div>

<div class="image">

</div>

<div class="caption">

<p>On the other hand in the third century BC, in the eastern part of Odisha Kalinga flourished

as a powerful empire under the Jaina emperor, Kharavela. He ruled all the way down south to

include parts of the Tamil country. He built the superb monastic caves at Udayagiri and

Khandagiri Caves. Subsequently, the region was ruled under various monarchs, such as

Samudragupta and Shashanka. It also was a part of Harsha's empire. In 795 AD, the king

Yayati Kesari I of Kesari or Soma dynasty of Kosala united Kosala and Utkala into a single

empire. He is also supposed to have built the first Jagannath Temple at Puri, although the

current structure of the temple is entirely different and was built by Kings Choda Gangadeva

and Ananga Bhimadeva of the Eastern Ganga Dynasty in the 12th century. The famous Lingaraja

temple in Bhubaneshwar was started by Keshari dynasty king Yayati Keshari III and completed by

his son Lalatendu Keshari in the 10th century.

</p>

</div>

<div class="caption">

<p>King Narasimha Dev is reputed to have built the magnificent Konark Sun Temple.

Although now largely in ruins, the temple may have once rivaled the Taj Mahal in splendour.

The Mughals conquered Coastal Odisha in 1576. The last Hindu Emperor of Odisha, Gajapati

Mukunda Deva, was defeated and was killed in the battle of Gohiratikiri. The coastal plain of Odisha from Medinipur to Rajahmundry came under Mughal rule, which was broadly divided into six parts as Jaleswar Sarkar, Bhadrak Sarkar, Cuttack Sarkar, Chicacole (Srikakulam) Sarkar, Kalinga Dandapat and Rajamundry Sarkar or Godavari Province.

</div>

<div class="image">

</div>

<div class="caption">

<p>Odisha's Central, Northern, Western and Southern hilly areas were ruled independently by Hindu kings.

The Nizam of Hyderabad occupied the area between Rajahmundry to Srikakulam in 16th century.

Medinipur was attached to Bengal province in 18th century. The remaining parts of Coastal Odisha, were subsequently ceded to the Maratha

Empire in 1751. The British occupied the Northern Circars comprising the southern coast of

Odisha as a result of the Carnatic Wars in the early 1760s and incorporated them into the Madras Presidency gradually.

In 1803, the British under the British East India Company annexed the Maratha province of Odisha after the

Second Anglo-Maratha War. The northern and western districts of Odisha were incorporated into Bengal

Presidency. Following famine and floods in 1866, large scale irrigation projects were undertaken in the last half of the 19th century. The coastal section was separated from Bengal and made into the Province of Bihar and Odisha in 1912, in response to local agitation for a separate state for the Odia-speaking people. In 1936, Bihar and Odisha were split into separate provinces. Thus after a long period of struggle the Odia people got re-united after centuries of political separation. On 1 April 1936, the new province of Odisha came into existence on linguistic basis during the British rule in India with Sir Jhon Austin Hubbak as the first Governor. A long cherished dream of Odia people and their leaders like Madhusudan Das,

</div>

<div class="caption">

<p>Maharaja Krushna Chnadra Gajapati, Pandit Nilakantha Das, Bhubanananda Das and many other came true. The district of Ganjam was transferred from Madras Presidency to the new province of Odisha on 1 April 1936. From that time onwards people of Odisha celebrate the day 1 April as Utkal Divas or Odisha Day. Following Indian independence, the area of Odisha was almost doubled and the population was increased by a third by the addition of 24 former princely states.

In 1950, Odisha became a constituent state in the Union of India. Since prehistoric days the land of Odisha has been inhabited by various people. The earliest settlers of Odisha were primitive hill tribes. Although prehistoric communities cannot be identified, it is well known that Odisha had been inhabited by tribes like Saora or Sabar from the Mahabharata days. Saora

in the hills and the Sahara and Sabar of the plains continue to be an important tribe distributed almost all over Odisha. Most of the tribal people have been influenced by Hindus and have adopted Hindu manners, customs and rituals. Bonda Parajas of Koraput district are the best example of these tribes. Several pre-historic sites have been excavated in Odisha since the arrival of Britishers. Kaliakata of Angul, Kuchai & Kuliana of Mayurbhanj, Vikramkhol near Jharsuguda, Gudahandi and Yogimath of Kalahandi, Ushakothi of Sambalpur, Similikhhol near Bargarh etc.

</div>

<div class="image">

</div>

<div class="caption">

<p>Odisha has a history spanning a period of over 5,000 years. Before Kalinga it was named as Udra or "Odra Desa". The Ancient Odra desa or Ordesa was limited to the valley of Mahanadi and to the lower course of Subarnarekha River. It comprised the whole of the present districts of Cuttack and Sambalpur and a portion of Midnapur. Bounded on the west by Gondwana, on the north by the wild hill states of Jaspur and Singhbhum, on the east by the sea and on the South by Ganjam, Odisha has a legendary history. The name Odia originated from Odra or Udra tribes that inhabited the central coastal belt (Khordha District and Nayagarh District) of modern Odisha. Odisha has also been the

home of the Kalinga, Utkal, Mahakantara/Kantara and Kosal that played a particularly prominent role in the region's history, and one of the earliest references to the ancient Kalingas appears in the writings of Vedic chroniclers. In the 6th century BC, Vedic Sutrakara Baudhayana mentions Kalinga as being beyond the Vedic fold, indicating that Brahminical influences had not yet touched the land. Unlike some other parts of India, tribal customs and traditions played a significant role in shaping political structures and cultural practices right up to the 15th century, when Brahminical influences triumphed over competing traditions and caste differentiation began to inhibit social mobility and erode what had survived of the ancient republican tradition.

</div>

<div class="heading">

<h1>History of Odisha</h1>

</div>

<div class="caption">

<p>A major turning point in world history took place in Odisha. The Kalinga War that led emperor

Ashoka to embrace non-violence and the teachings of Buddha was fought here in 261 BC. Ashoka's

military

campaign against Kalinga was one of the bloodiest in Mauryan history on account of the fearless

and

heroic resistance offered by the Kalingas to the mighty armies of the expanding Mauryan empire.

Perhaps on account of their unexpected bravery, emperor Ashoka was compelled to issue two edicts

specifically calling for a just and benign administration in Kalinga.

</div>
<div class="image">

</div>
<div class="caption">

<p>Later on, Ashoka was instrumental in spreading Buddhist philosophy all over Asia. However, Ativ Land (South Western Odisha) was unconquered by Ashoka. Tel river civilization put light towards a great civilization existing in Kalahandi, Balangir, Koraput (KBK) region in the past that is recently getting explored. The discovered archaeological wealth of Tel Valley suggest a well civilized, urbanized, cultured people inhabited on this land mass around 2000 years ago and Asurgarh was its capital. Kalahandi along with Koraput and Bastar was part of Kantara referred in Ramayana and Mahabharata. In 4th century B.C. this region was known as Indravana from where precious gem-stones and diamond were collected for the imperial Maurya treasury. During the period of Maurya emperor Ashoka, Kalahandi along with Koraput and Bastar region was called Atavi Land. This land was unconquered as per Ashokan record. In the beginning of Chrisitan era probably it was known as Mahavana. In 4th Century A.D. Vyaghraraja was ruling over Mahakantara comprising Kalahandi, undivided Koraput and Bastar region. Asurgarh was capital of Mahakantara. Hatigumpha Inscription of Emperor Kharavela, Udaygiri Konark Sun Temple built by the Eastern Ganga dynasty is one of the most well renowned temples in India and is a World Heritage Site.</p>

<h1>INTRODUCTION TO HISTORY OF ODISHA</h1>

<p>The recorded enthralling history of Odisha goes back more than two millennium. Several great empires and dynasties have ruled over the state and have contributed greatly to the history, culture and development of Odisha. Odisha is formally known as orissa. In the different era the region and parts of the region were known by different names.

In the ancient times Odisha was known as Kalinga which was named after son of king Bali. According to some scriptures and mythology he founded the kingdom of Kalinga, in the current day region of coastal Odisha, including the Northern Circars. Kalinga is mentioned in the Mahabharata several times. From the time of Kalinga to Odisha the state is refered/ called by many names like Utkala, Mahakantara, Urda (Odia word is eveolved from the Urda tribe), Oddiyana, Kamala Mandala, South Kosala, Kongoda, Trikalinga, Tosali.

The history of Odisha can be traced back to the prehistoric days. The pre-historic culture of Odisha was very different from that of the northern part of India. During lower Paleolithic times the Acheulian tools was prevalent in the districts of Mayurbhanj, Keonjhar, Sundargarh and Sambalpur in Odisha. The Gudahandi hills in Kalahandi district have paintings and rock carvings dating to Upper Paleolithic times. Some of the rocks, like the Mayurbhanj granite pluton, have been dated to 3.09 billion years ago.

Prehistoric paintings, inscriptions, pieces of pottery and tools like hoes, chisels, pounders, mace heads, grinding stones have been found in different parts of the state.</p>

</Div>

<div class="sub-head" id="section1">

<h1>Early History of Odisha :</h1>

<p>Ashoka and Kalinga War Ashoka of the Mauryan dynasty conquered Kalinga in the bloody Kalinga War in

261 BCE which was the 8th year of his reign. According to his own edicts, the war about 1,000,000

people were killed, 1,500,000 were captured and several more were affected. The resulting bloodshed

and suffering of the war deeply affected Ashoka. He turned into a pacifist and converted to

Buddhism. The Kalingans had used personnel from the Atavika region, which was in the west of

Kalinga, during the war. According to his edicts, Ashoka conquered the coastal region of Kalinga but

didn't try to conquer the Atavika region. The Mauryans governed the Kalinga region as a province.

They used Tosali as the regional capital and judiciary center. A kumara (viceroy) ruled from Tosali,

modern-day Dhauli. Samapa, modern-day Jaugada, was another administrative centre. Ashoka erected two

edicts in the region, at Jaugada and Dhauli.

In the 1st century BCE, Mahameghavana established the Mahameghavahana dynasty in Kalinga. Kharavela

was the third ruler of the dynasty. He reigned in the second half of the 1st century BCE. Most of

the information about Kharavela comes from the Hathigumpha inscription in Udayagiri near

Bhubaneswar. The inscription also calls the dynasty as Chedi (also spelled Cheti) but it is not the

same as the Chedi kingdom of western India.

</p>

<h1 class="subpoint" id="section2">Medieval History</h1>

<h2 class="otpoint" id="section3">

Gajapati Dynasty :

</h2>

<p>The Gajapati Dynasty was established by Kapilendra Deva in 1435, after the fall of the last Eastern Ganga king, Bhanudeva IV. The dynasty is also known as a Suryavamsi dynasty. In about 1450, Kapilendra Deva installed his eldest son, Hamira, as the governor of Rajamundry and Kondavidu. Kapilendra Deva managed to spread his kingdom from Ganga in the north to as far as Bidar in the south by 1457. During Kapilendra Deva's reign, Sarala Dasa, the Odia poet, wrote the Odia Mahabharata and his other works. When Kapilendra Deva died in 1467, a civil war occurred to capture the throne, among his sons. In the end, Purushottama Deva succeeded in securing the throne in 1484 by defeating Hamvira.</p>

<h2 class="otpoint" id="section4">

Mukunda Deva :

</h2>

<p>Mukunda Deva (also known as Mukunda Harichandana) came to throne, in 1559, in a bloody coup. According to the Madala Panji (temple records), he was a Chalukya. During this period, Odisha was going through many internal conflicts. Mukunda struck an alliance with Akbar, that he made him a foe of Sulaiman Khan Karrani, the ruler of Bengal. Sulaiman sent his son, Bayazid Khan Karrani and his infamous general, Kalapahad, to conquer Odisha, in 1567.</p>

<h2 class="otpoint" id="section5">

Bengal (Karrani) rule :

</h2>

<p>In 1568, Odisha came under the control of Sulaiman Khan Karrani of the Karrani dynasty, who was the ruler of Sultanate of Bengal. In the Battle of Tukaroi, which took place in

modern-day Balasore, Daud Khan Karrani was defeated and retreated deep into Odisha.

The battle led to the Treaty of Katak in which Daud ceded the whole of Bengal and

Bihar, retaining only Odisha. The treaty eventually failed after the death of Munim Khan

(governor of Bengal and Bihar) who died at the age of 80. Daud took the opportunity and

invaded Bengal. This led to the Battle of Rajmahal in 1576, where Daud was defeated and executed.

Mughal rule :

In 1590, Qutlu Khan Lohani, an officer of Daud, declared himself independent and assumed

the title of "Qutlu Shah". Raja Man Singh who was the Mughal governor of Bihar, started an expedition

against him. Before facing Man Singh, Qutlu Shah died. Qutlu Khan's son Nasir Khan, after little

resistance, accepted Mughal sovereignty and paid homage to Man Singh on 15 August 1590. Nasir Khan was

then appointed Governor of Odisha and signed a treaty which ceded the region of Puri.

Under Akbar Rule :

Raja Ramachandra Deva, the king of Khurda, had accepted Akbar's suzerainty. Akbar mostly followed a

policy of non-interference in the local chieftains' matters. After Akbar, his son, Jahangir came to

power, who followed a different policy.

Under Shah Jahan :

<p>In 1628, Shah Jahan became the Mughal emperor and Muhammad Baqar Khan was appointed the governor of Odisha. He extended his influence well into the kingdom of Golconda. In 1632, he was recalled. Shah Shuja was appointed by Shah Jahan as the Subahdar of Bengal from 1639 until 1660. From 1645 onwards, a deputy of Shuja called Zaman Teharani was the governor of Odisha.</p>

<h2 class="otpoint" id="section9">

Under Aurangzeb :

</h2>

<p>In 1658, Shah Jahan took ill and Dara Shikoh took on as the royal regent. This led to a war of succession in which Aurangzeb emerged victorious in 1659. He imprisoned his own father, who later died in 1666.

During this period of instability in the Mughal empire, several chieftains in Odisha had declared independence.</p>

<h2 class="otpoint" id="section10">

Maratha rule :

</h2>

<p>The river Subarnarekha served as the border between Bengal and Maratha-controlled Odisha. Marathas used to collect a pilgrimage tax at Puri, which was exempt for paupers.

In 1803, the British conquered the region during the Second Anglo-Maratha War, when most of the Maratha forces were engaged elsewhere.</p>

<p>Pandit Gopabandhu Das
was in the true sense a jewel and friend of the poor.

Born on 9th October 1877, in Suando Village near Sakshigopal of Puri District,

he started his education career in Vernacular language initially at Rupadeipur

minor school and then at Puri Zilla School. Gopabandhu had lost his mother Swarnamayee

Devi after few months of his birth and also lost his father Daitari Dash while he was a

student at Ravenshaw College. In spite of his great personal loss, he had written poems like

"Abakasha Chinta", Go-mahatmay, Nachiketa upakhyana, Karakabita, Dharmapada and "Bandira Atmakatha"

when he was continuing at Ravenshaw College.</p>

<p class="card-text">
```

Chhena Poda or Chenna Poda is one of the much-celebrated sweet dishes from the beautiful state of

Odisha. Its made with chenna or fresh paneer, sugar and flavorings. The ingredient list of the Chhena

Poda Recipe is minimal, but then, it does take some time to get done as it has to be baked. The

classic preparation actually uses a chulha (small earthen/brick stove). Since at home, you bake it in

an oven, it can also be referred to a paneer cake. Chhena poda literally translates to roasted cheese in

the English language. Its also said that chhena poda is the favorite sweet of Lord Jagannath (The

presiding deity of Puri Jagannath temple in Odisha). Chhena poda is also made during festivals like

Diwali or Durga puja.

      <h1>Paradeep Beach</h1>
      <h2>about</h2>
      <p>Located 125 Km from the capital city Bhubaneswar, Paradip
is one of the most important commercial ports of the country. The beach
with green forest cover, natural creeks and an island is one of the most
```

popular beaches of the state. Clear blue waters surrounded by green forest cover and its location at the confluence of the river Mahanadi with Bay of Bengal, makes Paradip one of the most sought after beaches of the state. A leisurely drive along the marine drive with the setting sun in the horizon is one of the highlights of this beautiful beach destination of Odisha.

The sight of huge cargo ships anchored in the port always entices the photographers for that one perfect shot for posterity.

Things to do

One can indulge in the usual beach activities but always enlist the help of the lifeguard before venturing into the sea.

Steal a moment for yourself, bask in the serene settings and savour the beauty of solitude.

Paradip Marine Aquarium – the small boat shaped building houses a variety of marine and fresh water animals and offers a good entertainment especially for the children

One can visit the port with necessary permissions.

Located 125 Km from the capital city Bhubaneswar, Paradip is one of the most important commercial ports of the country. The beach with green forest cover, natural creeks and an island is one of the most popular beaches of the state.

Clear blue waters surrounded by green forest cover and its location at the confluence of the river Mahanadi with Bay of Bengal, makes Paradip one of the most sought after beaches of the state. A leisurely drive along the marine drive with the setting sun in the horizon is one of the highlights of this beautiful beach destination of Odisha.

The sight of huge cargo ships anchored in the port always entices the photographers for that one perfect shot for posterity.

<h1>Chandipur Beach</h1>
```

```
<h2>about</h2>
```

```
<p>
```

Chandipur is a beach like no other. During low tides the beach recedes upto 5 KM offering visitors the opportunity to walk on the sea bed. This unique phenomenon helps the beach to support its equally unique biodiversity. It is home to the endangered horse shoe crabs, star fish, sea urchins to name a few. The water of the beach is muddy making it unsuited for bathing.

Things to do

While walking on the sea bed during low tides always ensure that you heed the advice of the locals for the water comes rushing in during high tides

The confluence of the Buddhbalanga River is a scenic spot and popular amongst locals a picnic spot.

The Panchalingeswara temple located 41KM from Chandipur is a revered temple of the region.

<h1>Puri Beach</h1>
```

```
<h6>Where The Ocean Greets The Divine</h6>
```

```
<h2>about</h2>
```

```
<p>
```

The pilgrim town is famous for its golden beaches which forms its eastern boundary. Considered one

of the safest beaches in the country, one can find tourists taking to sea and enjoying a leisurely

bath. The beach congregation of people throughout the day except may be in the afternoon. Puri is one of the few destinations which offers spiritual salvation along with the thrill of nature. The Beach offers tourists the solitude and serenity to soak in the mystical charm of the city. Lined across the beach of Puri are some of the most important relics of history, like the Baulimatha – where Guru Nanak stayed during his visit to Puri. The Matha located near Swargadwar houses, where The Holy Guru Granth Sahib is placed right next to Lord Jagannath. Things to do The beach is mostly secluded at the break of dawn, an early morning walk or simply sitting by the shore and watching the sunrise and the waves splashing against beach makes for a magical experience.

Always enlist the help of Nulia (life guard) before going into the sea. The beach market springs to life in the evening, the shops sell anything from souvenir to utility items. In the evening's kids can enjoy the camel ride or horse ride in the beach, The road side stalls prop up along the beach selling popular Indian snacks to sea food. There are many shops selling Odisha handloom and textiles dotted along the road next to the beach along with artefacts. For the shopaholics it makes for an exciting prospect.

Always remember that vacations are meant to be reminisced as happy memories. Enjoy responsibly and be sensitive to the environment

<h1>Gopalpur Beach</h1>
```

```
<h6>Where History Is Lost In Sands of Time</h6>
```

```
<h2>about</h2>
```

```
<p>
```

During ancient times, Gopalpur served as an important port for the seafarers of ancient Kalinga. Even during the World War –I, it was an important military port where soldiers used to embark on a journey to Burma.Gopalpur was the place where the first ever modern hotel was built in Odisha and probably the first ever beach resort of the country. The Palm Beach Resort was built in 1914 by an Italian gentleman by the name of Signor Maglioni to cater to the merchants and businessmen. The hotel was bought by the Oberoi group of hotels in 1948 in what was the group’s first venture into the hospitality business. Currently the hotel is owned by the Mayfair Group of Hotels.

The casuarina groves that line up the sun kissed beach makes for enchanting sight. The beach is mostly secluded and one of the cleanest beaches in the country.Things to do 1d29709

The sea is too rough for swimming, hence we advise you not to indulge. As the beach is east facing, the sunrise and sunsets are spectacular.

It is the best place to steal a quiet moment to yourself and a stroll along the shore is quite rejuvenating

A walk through the town one comes across many an old dilapidated buildings from a bygone era which lends character to this quaint beach town. For the sea food lovers a stroll to the early morning fish market is recommended.

Always remember that vacations are meant to be reminisced as happy memories. Enjoy responsibly and be sensitive to the environment

Padmapur is one of the popular villages in the district of Rayagada of the state Odisha, mainly because of the numerous temples located in the town. There is a hillock on the northern side of the village that embraces the surrounding of this place and lures a larger chunk of tourists. On this hillock, there are temples like Mallikeswar, Neelkantheshwar, Pudugeswar, and Dhabaleswar that traces their history from the ancient times. These temples are dedicated to Lord Shiva. Making the place an important heritage centre in Odisha, a 7th-century inscription was found in Neelkantheshwar Temple which stated that the nearby located Jagdamba Hills was once the home of a monastery of the well-known Buddhist logician-philosopher named Dharmakirti.

<p class="card-text">

Traces its history from Gupta Period, Muchalinda is a Buddha Monastery in Odisha which is located near the confluence of the Magar and Ang Rivers in Gaisilat Block, Padmapur Subdivision in Bargarh district. The statue of Muchalinda was first discovered by an art historian, Charles Fabri in 1961. In 1978, an excavation project was carried out here by P.G. Department of History, Sambalpur University. However, it is said that this popular heritage site in Odisha was once had a multi-storied structure. But due to brick robbing, most of the foundation plinths

have been destroyed. The excavation also discovered the traces of walls of the chambers and cells of the Bhikshus, chaitya hall, and mendicants. Along with that, two Buddha idols were also recovered on a small stone called mandapa. These idols include the statues of a Muchalinda Buddha and Buddha at Sarnath while giving the homily. As per Buddhist scripture, Vinaya Pitaka, the serpent King Muchalinda protected Lord Buddha during the second of his enlightenment programme. Muchalinda created an umbrella from his hood to protect Buddha from the rain and storm. Thus, the locals worship his statue call him as Naga-Muni.

<h1 class="card-header">Kuruma Odisha</h1>

<p class="card-text">

Some 8 km southeast of Konark Sun Temple, there is located a small village in Puri, Kuruma.

Kuruma is a popular Buddhist heritage site in Odisha and is known for proffering a great insight

to the Buddhism culture of the state. Believed to be built in 9th-10th centuries, the place was

first located by Shri Barajabandhu Das who was a school teacher. Between the time period of 1971

and 1975, an excavation project was carried out at Kuruma by Odisha State Archaeological

department. Before this time period, a stone slab was found here that contained an idol of Lord

Buddha in bhumisparsha mudra. Apart from this, a couple of more statues were recovered near the pond. The finding of these statues led to the excavation period. It is said that once there existed a Buddhist Monastery which was also referred by Hiuen Tsang.

This Buddhist monastery has twelve blocks with a height of 34 m each including three blocks in each cardinal direction. It also has Buddhist monks cells and a shrine chamber and a large courtyard with a shape of 'Swastik'. Though the place is abandoned now, it is still worshipped by locals. At present, the site has a small temple with three Buddhist idols. The first is Buddha seating in a bhumisparsha mudra (crossed legs) with the left hand on the knee. Whereas, the other two are Padmapani Avalokiteshvara and Revanata that are places near the water tank.

The locals of Kuruma worship all the three images as 'Yamadharma'.

<h1 class="card-header">Langudi Odisha</h1>

<p class="card-text">

Langudi is a Buddhist heritage site in Odisha located on the plains of Mahanadi Delta in the district of Jajpur. This long stretch of hills is lacking with vegetation but is clustered with several Khondalite rocks. The hill houses a series of rock-cut Buddhist stupas and few Buddhist

shrines dated back from early medieval that make it one of the top tourist attractions of the district. The excavation carried out here uncover two panels of rock-cut caves and Dhyani Buddhas. The first panel dates back from 1st-4th centuries that consists of the series of 34 stupas. Of these, the centre one in the series is the largest stupa flanked by Vidyadharas that tells the specimen of the stunning craftsmanship. However, there is one more feature of the series that include a floral tribute to stupas. Coming on to the second panel, which traces its history from 8th-10th centuries, it includes stupas, Buddhas in dhyani mudras, goddess Tara - the seafaring goddess, Avalokitesvaras - deities of Vajrayana pantheon, Prajnaparamita - the holy mother of all the celestial Dhyani Buddhas.

<h1 class="card-header">Pushpagiri Odisha</h1>

<p class="card-text">

Probably the most famous Buddhist viharas (monasteries) in Odisha, Pushpagiri is perched atop of Languri Hills in the Jajpur district. Built in the 3rd century CE, the place ranks as one of the important institution of higher learning in ancient India that makes it a popular heritage site in the country. In 639 CE, Xuanzang (Hiuen Tsang), a renowned Chinese traveller, visited Pushpagiri along with Vikramshila, Takshashila, and Nalanda. That was the time when he named

this place as Pushpagiri Vihara. The Buddhist centre of Pushpagiri also has its description in medieval Tibetan texts. The complex of Pushpagiri sprawls over three hilltops (Lalitgiri, Ratnagiri, and Udayagiri) that include various stupas, temples, monasteries, and sculptures which boasts architecture design from the Gupta Period. However, till 1995, when a professor of local college first visited this place, these ruins were undiscovered. After that, an excavation program was carried out here in 1996 under Odisha Institute of Maritime and South East Asian Studies. This program ran from the period of 1996 to 2006 on 143 acres of land. Throughout this whole-time span, numerous ruins were recovered from this place that includes a piece of Brahmi inscription identified as Pushpagiri, a large stupa, artefacts, and more. </p>

<h1 class="card-header">Dhaulti Odisha</h1>

<p class="card-text">

Blessed with serenity and brimming in history and culture, Dhaulti is home to the famous rock edicts of Ashoka. It is said that Dhaulti is the place where the battle of Kalinga was fought.

The Mauryan emperor Ashoka conquered this battle in 265 BC. Despite his victory, the horrors and the misery of this battle filled him with remorse. As a result of this, his ambition changed from military conquest (Dig-Vijaya) to spiritual conquest (Dharma-Vijaya). With that, Ashoka

repudiated the path of violence in favour of embracing Buddhism in Dhauli which was then became an important Buddhist centre. He then issued his new adages in rock edicts that were installed in different parts around his empire. And one of these edicts lies here at the base of the hill. Ashoka also built various pillars, chaityas, and stupas here at Dhauli. Apart from this, Peace Pagoda (Vishwa Shanti Stupa) is another attraction of Dhauli that is located on the top of the hill. In 1972, it was built by Japan Buddha Sangha and Kalinga Nippon Buddha Sangha which is an Indo-Japanese collaboration. The beautiful white double storey structure comfortably standing on a platform in the form of a large dome with lotus petals as its crown. The top of this stupa is covered with five chhatris (umbrellas) which represents the five aspects of Buddhism.

<h1 class="card-header">Khiching Odisha</h1>

<p class="card-text">

Comes under the district of Mayurbhanj, Khiching is a historical village that was once the capital of Bhanja rules. The star attraction of this beautiful place is a Maa Kichakeswari

Temple which dates back to the 7th or 8th century. Kichakeswari Temple is made up of chlorite slabs and boasts an impressive Kalinga architectural design. However, the temple is believed to

be the first temple of Odisha and because of this Khiching is known as the town with a rich heritage history. But, the architectural ruins recovered from this place said that the temple traces its history from the 8th to 12th century. It is also said that, once the town was a house of eight Shiva temples out of which seven can still be traced. At present, there are just three ancient temples left that worship Chandrasekhar, Kutaitundi, and Kichakeswari. In order to lure more tourists to the village, a museum has been also installed that boasts life-size images of numerous deities like Ganesha, Durga, Tara, Parvati, Parsvanatha, Vaishnavi, Avalokitesvara, Kartikeya, Dhyani Buddha, Uma-Maheswara, Nandi, and more. On display, there are also sculpted parts of various ancient temples to promote the heritage tourism in the region. </p>

<h1 class="card-header">Udayagiri Odisha</h1>

<p class="card-text">

Udayagiri is the largest Buddhist centre in Odisha located in the foothills of Jajpur district.

This heritage tourist site in Odisha forms the very famous ‘Diamond Triangle’ of Odisha along

with Ratnagiri and Lalitgiri. Udayagiri along with its adjacent hill Khandagiri houses a group

of ancient rock-cut caves that were once the shelters of earliest groups of Jains. In total,

there are 18 caves in Udayagiri and 15 in Khandagiri and are known by the name Udayagiri and

Khandagiri Caves. However, in the ancient inscriptions, these caves are called as Lena and the most famous of the group lies here in Udayagiri which is Rani Gumpha. Whereas, the other famous caves include Ananta Gumpha, Hathi Gumpha, Jaya Vijaya Gumpha, Ganesha Gumpha, and Bagh Gumpha.

Ancient monasteries and stupas are other prime attractions of the place. The monasteries in Udayagiri trace their history in between 7th to 12th centuries. Since 1958, the place has witnessed numerous excavation programs carried out by Archaeological Survey of India. In all those excavations, various ruins have been recovered that include antiquities, 23 ft stupa, images of Lord Buddha in Dhyani posture, monasteries, and the statues of various deities like Tara, Manjushri, Avalokiteshvara, Lokeswara, Jatamukuta, and more. At present, the complex of Udayagiri proffers a stunning sight of a large monastery. Along with that, the hidden treasure of more such enthralling ruins is expected to be buried under the land which is still unexcavated. These lands boast a mystery to all the art lovers and archaeologists.

<div class="card-content">

<h1 class="card-header">Lalitgiri Odisha</h1>

<p class="card-text">

Some 83 km east of Bhubaneswar, there is located an ancient Buddhist complex amidst the

picturesque Birupa-Chitrotpala valley in the district of Cuttack, Odisha. This Buddhist heritage site in Odisha dates back to 1st century AD. Lalitgiri is an important part of Diamond Triangle of Odisha which includes three major ancient Buddhist sites; Ratnagiri and Udayagiri being the other two. In 1937, the central government gave this place the status of a protected monument.

The place constitutes stupas, monasteries, and Buddha images as its main attractions. It is said that Lalitgiri was a prime place of Tantric Buddhism. Some excavations were carried out at Lalitgiri in 1977 by Utkal University. However, the major excavation was carried out by Bhubaneswar Circle of the Archaeological Survey of India between 1985 and 1991 to find the Pushpagiri. Pushpagiri was mentioned in the writings of the Chinese traveller Xuanzang. It was this excavation which officially declared Lalitgiri an ancient Buddhist site in Odisha.

Moreover, this excavation also helped to discover various important ruins. From this excavation, a large stupa was recovered with two caskets with some relics. As per the archaeological experts, these are Buddha's relics. Besides, remnants of four monasteries were also discovered in this excavation process. Facing east, the first was the largest monastery, sprawls in the area of 390 sq ft, that dates back to 10th-11th century. The second and third ones face north and south-east. Whereas, the fourth monastery include many large Buddha heads in the sanctum sanctorum. Moreover, the idols of Buddha in different postures along with a few prestigious relics were also discovered. Another talk of this enthralling place is a museum where sculptures of Buddhas, stone statues, images of various deities and relic caskets are put on a display.

    <h1 class="card-header">Balasore Odisha</h1>
    <p class="card-text">
```

Presenting a glorious coastal attraction in Odisha, Balasore is a beach city located in the northernmost part of state Odisha. In October 1828, a separate district of Balasore was created.

In the ancient times, the city served as ruling kingdom of Kalinga, Toshal, and Utkal kingdoms.

Just to let you know that the city of Balasore is amongst the top literate cities in Odisha with over 100 education centres. The locals here mainly depends on the agriculture, fishing, and tourism. Primarily, the city is famous for the mysterious Chandipur Beach and secondary for its heritage temples. Apart from this, this historical city also includes historical palaces, tombs, hills and beaches as their main attractions. Langula Narasimha Dev Temple, Gopinatha Temple, and Biranchinarayan Temple are some of the well-known attraction of this place.

Established by the British government in 1642, Balasore remains an important trading port with British, Dutch, and French till the 18th century. As a result of this, ruins of some Dutch tombs and remnants of old canals can still be seen at this place. Being a mixed cultural heritage city in Odisha, the population of Balasore include both Marwaris and Bengali locals. Besides its various attractions, the city is also famous for its unique delicacies, especially a juicy sweet

call rasgullas and also Chhena poda. There are also various shops that sell enthralling items made up of seashells and beads. Moreover, the place is also famous for its locally made fabrics especially kotki cotton and sambalpuri sarees.

<p class="card-text">
```

Sri Lokanath temple is one of the most important Shaiva shrines of Odisha. The temple is situated near the Jagannath temple of Puri. As per local people this temple was established by Lord Ramachandra. From the architectural point of view, the temple

is not so important but from the religious point of view, it occupies an important position in the cultural history of Odisha. The legend says that Lord Rama on his way to Lanka for searching Sita reached Puri. At that time Sabaras(a

native of the village) presented him a Lau or Lauka(Pumpkin) looking like a Siva Linga, Lord Rama installed that as the replica of Siva Linga at that place and prayed Siva to fulfill his desire. From that day this Siva Linga was

called Laukanatha. It is believed that the word Lokanatha is a later innovation from the original word Laukanatha. </p>

Located in Brahmagiri, The Alarnath Temple is a revered shrine dedicated to Lord Vishnu or Lord Alarnath as he is known locally. The present temple is a 14th-century shrine attributed to Rajputs from Alwar. The Rajputs settled in Western Odisha between

1300 AD & 1400 AD. The name Alarnath is derived from Alwarnath. According to the legend, Lord Alarnath is the form of Vishnu- carved out of black stone-as prescribed by the Lord himself to Brahma. It is believed that those who

cannot worship Lord Jagannath during his stay in the sick chamber can get the blessings of the deity if they visit the Alarnath temple. This particular legend has its roots in Chaitanya Mahaprabhu. Chaitanya claimed that he visualized

the appearance of Lord Jagannath in Lord Alarnath and spent a long period of worshipping the deity here.

In the Hindu month of Kartik(October - November), the city of Cuttack in Odisha celebrates a renowned festival known as Bali Jatra. The name Bali Jatra means ‘A Voyage to Bali’. This popular festival of Odisha marks its beginning from the day of the full moon and continues for the next seven days at Gadagadia Ghat of the River Mahanadi where they worship the Lord Kartikeswar - the presiding deity of this festival. Moreover, through this festival, the locals also commemorate that day when sailors of Odisha first crusade to distant lands of Java, Bali, Borneo, Sri Lanka and Sumatra. To pay their homage, regional people make the artificial boat(made up of paper, barks of the banana tree and cork) and float it in the water. Besides, the festival also observes the tradition of lighting lamps in the boat which is called Boita Bandana. This boasts an amazing landscape of countless boats lit with lamps.

Finding its origin in the year 1962, Ushakothi wildlife sanctuary offers a soulful experience to wildlife lover “Badrama Wildlife Sanctuary”, which is also known as “Ushakothi Sanctuary” is situated at a distance of 37 Km. from the district headquarters of Sambalpur District towards Deogarh on National Highway-6. The sanctuary comprises parts of Badrama Reserve Forests, Ushakothi Reserve Forests, Binjipali Reserve Forests and Additional Kansar Reserve Forests. The Sanctuary is characterized by the presence of Moist Sal Forests, Sal dominated mixed deciduous Forests and bamboo forests. The Sanctuary forms a significant part of the Sambalpur Elephant Reserve.

Chandan Yatra

This festival takes place in the month of Vaisakha and continues for 42 days. But, generally speaking, and for the pilgrims and visitors, it is a Festival of 21 days only. The first period is known as Bahar Chandan or outer Chandan. During this period, the representative images of Rama, Krishna, Madanmohan, Laxmi and Biswadhatri are taken in a procession to Narendra tank. Also

images of Siva from 5 Shiva Temples known as Pancha Pandavas accompany them in a Procession in the Narendra tank, the images play in well-decorated boats and are worshiped. The second period of 21 days known as Bhitar Chandana is celebrated inside the Temple.

<p class="card-text">

The Chhau Festival is a significant festival for the people of Odisha, which continues for three successive days. The Festival is observed by the Bhuiyans Tribe in numerous areas of Odisha, particularly in Koraput, where the celebration is praised with the most extreme intensity. The celebration is basically appended to Mayurbhanj Chhau, a noteworthy move type of Odisha. It includes artists wearing covers called Chhau which originate from the word Chhaya, signifies shadow. Thus the dance form suggests playing with the shadow. Performers wear vibrant costumes and play mythical characters or historical characters. Chhau is a vivacious type of martial dance & dramatization prevalent in the Chotanagpur level range of Eastern India. </p>

                        Ratha Yatra is a major Hindu festival associated with
Lord Jagannath held at Puri in India
                        during the months of June or July.

```

The Puri Rath Yatra is world-famous and attracts not only from India but also from the different parts of the world. Rath Yatra, in other words, the Chariot Festival is the only day when devotees who are not allowed into the temple can get a chance to see the deities. This festival is a symbol of equality and integration. The 3 deities, Lord Jagannath, his elder brother Lord Balabhadra and their sister Subhadra are worshiped within the temple, on this festival they are taken to the streets of Puri so that everyone can have the fortune to see them. The 3 deities make an annual journey to their aunt's Temple(Gundicha Temple), 2 km away from Lord Jagannath temple.

```

Oriya Language

Odia (ଓଡ଼ିଆ)

Odia is an Indo-Aryan language spoken by about 40 million people mainly in the Indian state of Odisha, and also in parts of West Bengal, Jharkhand, Chhattisgarh and Andhra Pradesh. Odia is one of the many official languages of India. It is the official language of Odisha, and the second official language of Jharkhand. It is also designated as a Classical Language in India as it has a long literary history. Odia is closely related to Bengali and Assamese. Odia is also known as Oriya, and Odisha as Orissa, however Odia and Odisha are now the preferred names in English as they are closer to their native names: ଓଡ଼ିଆ (odīā) [ɔd̪iː] and ଓଡ଼ିଶା (odīśā) [ɔd̪iːʂaː].

Written Odia

The Odia script developed from the Kalinga script, one of the many descendents of the Brahmi script of ancient India. The earliest known inscription in the Odia language, in the Kalinga script, dates from 1051. The curved appearance of the Odia script is a result of the practice of writing on palm leaves, which have a tendency to tear if you use too many straight lines..

eminent.php:-

EMINET PEOPLE OF ODISHA

"Sri. Nilamani Routray"

Sri. Nilamani Routray

Sri. Nilamani Routray was born at Mukundpur of Balasore district. He was a Graduate in Arts and Law. was the Secretary of Oriya Samaj of Calcutta.

He was the Chief Minister of Odisha from 1977 to 1980. He was elected to the Lok Sabha in 1989. He served as the **Health and Family Welfare Minister and**

then Forest and Environment Minister in the Union Government. He was the president of the Odisha state unit of the Indian National Congress from

EMINET PEOPLE OF ODISHA

"Utkal Gourav Madhusudan Das"

Madhusudan Das

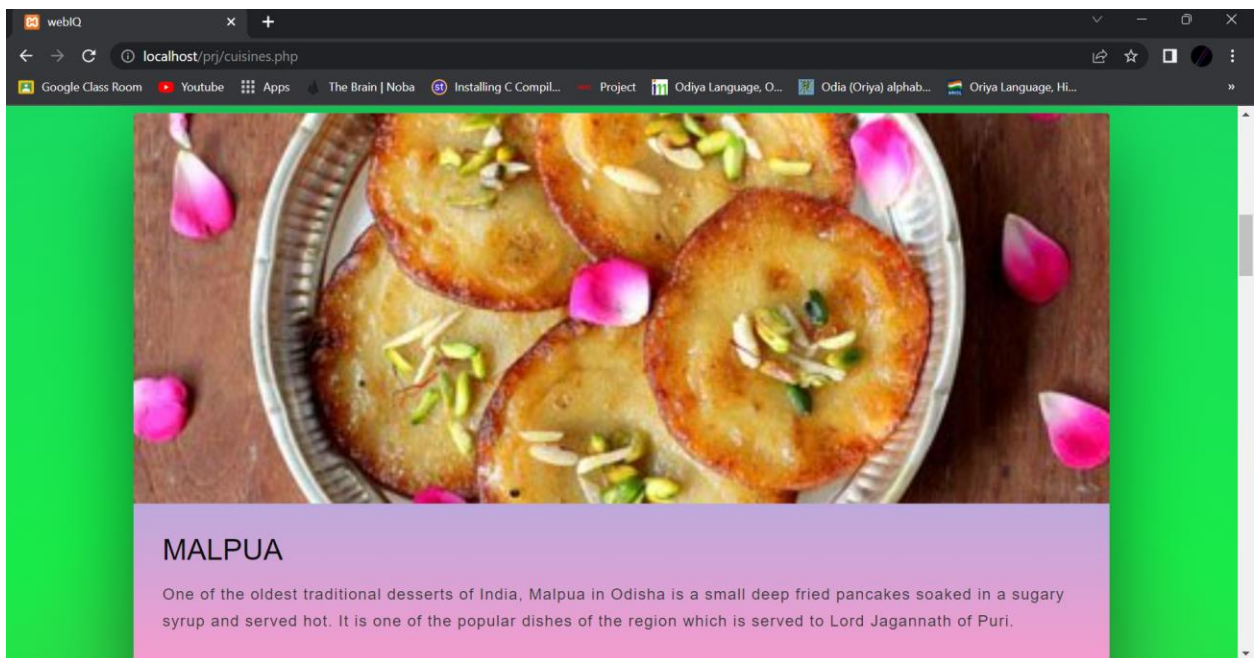

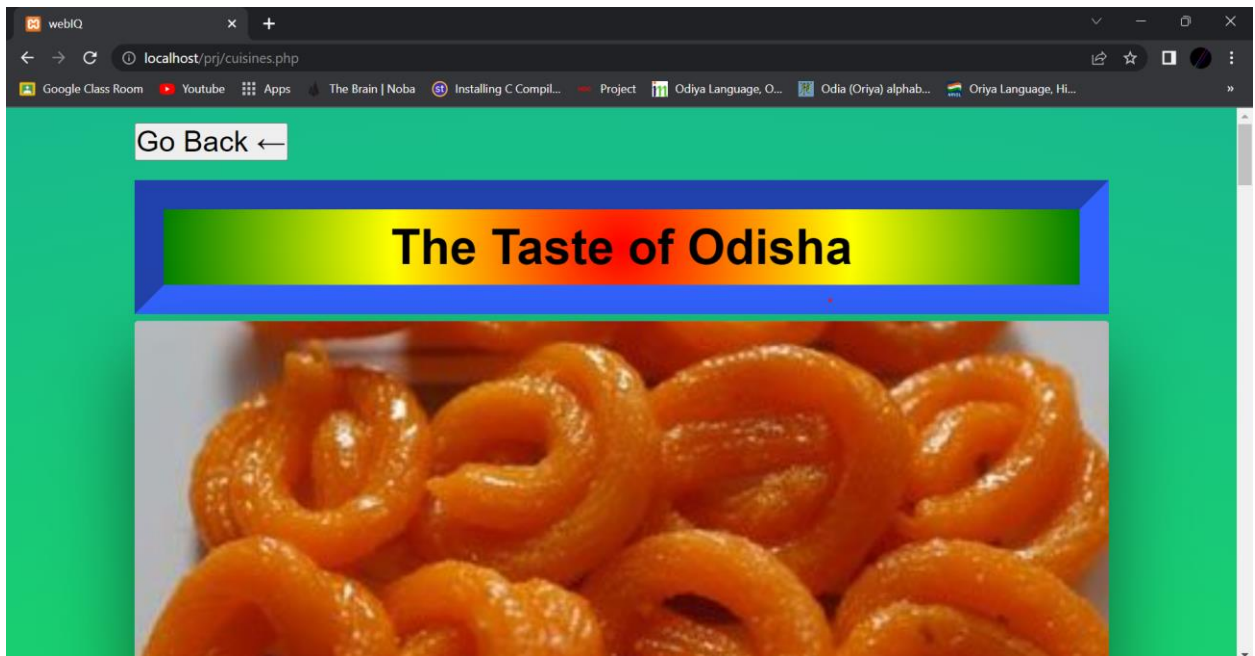

First Odia to get the Degree of M.A. B.L. from Calcutta University. Took a valiant stand for unification of scattered Odia tracts. Emerged on the Eastern horizon as a symbol of new hope and aspiration of all Odias . Was the founder of Utkal Sammilani, architect of Odia movement and pioneer in the field of industrial development. Acclaimed as a

great Legislator and Journalist, he was the first Odia to be the member of Legislative Council and Member of Central Legislative Assembly and was the first to sail overseas.

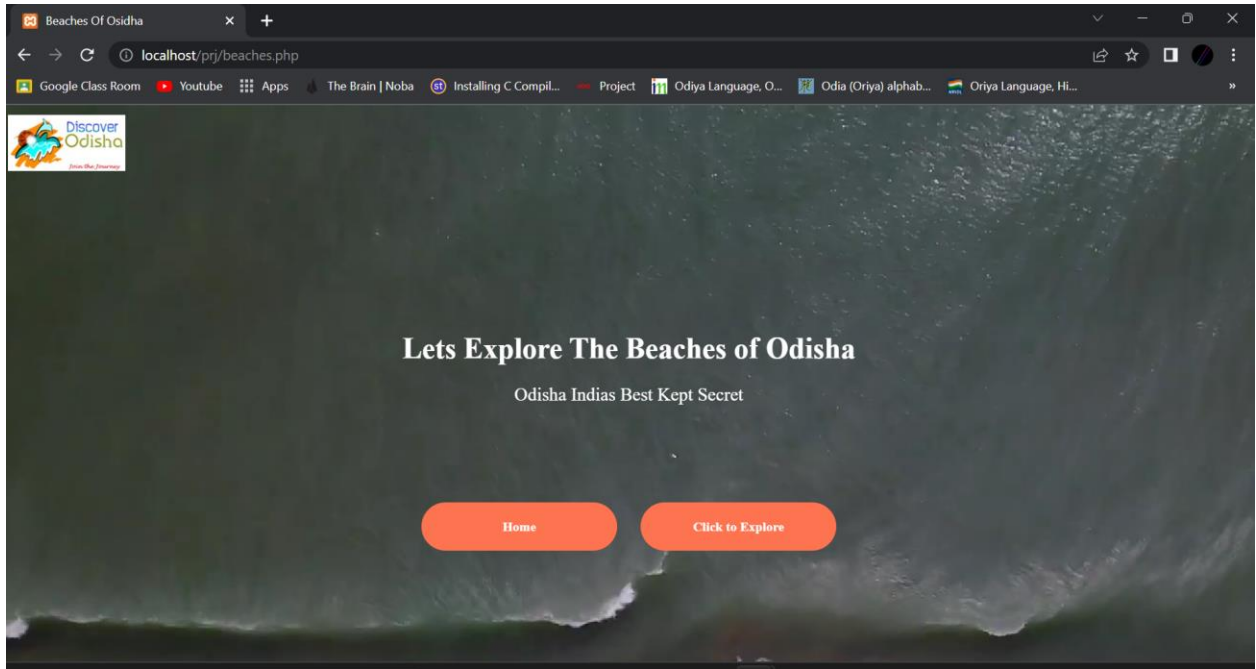

He had the distinction of being the first Indian Minister. He is also Known as Kula Brudha & Utkal Gourav Madhusudan Das. Madhusudan Das (28 April 1848 – 4 February

1924) was an Indian lawyer and social reformer, who founded Utkal Sammilani in 1903 to campaign for the unification of Odisha along with its social and industrial

Muchalinda Odisha

Traces its history from Gupta Period, Muchalinda is a Buddha Monastery in Odisha which is located near the confluence of the Magar and Ang Rivers in Gaisilat Block, Padmapur Subdivision in Bargarh district. The statue of Muchalinda was first discovered by an art historian, Charles Fabri in 1961. In 1978, an excavation project was carried out here by P.G. Department of History, Sambalpur University. However, it is said that this popular heritage site in Odisha was once had a multi-storied structure. But due to brick robbing, most of the foundation plinths have been destroyed. The excavation also discovered the traces of walls of the chambers and cells of the Bhikshus, chaitya hall, and mendicants. Along with that, two Buddha idols were also recovered on a small stone called mandapa. These idols include the statues of a Muchalinda Buddha and Buddha at Sarnath while giving the homily. As per Buddhist scripture, Vinaya Pitaka, the serpent King Muchalinda protected Lord

Shree Mandir(Lord Jagannath Temple)

Sun Temple

Konark Sun Temple is situated in the eastern state of Odisha, India and is one of the eminent tourist attractions. Konark houses a massive temple dedicated to the Sun God. The word Konark is a combination of two words Kona and Arka. Kona means Corner and Arka means Sun, so when combines it becomes Sun of the Corner. Konark Sun Temple is situated in the northeastern corner of Puri and is dedicated to Sun God. Konark is also known as Arka kshetra.

Testing and Validation

1) Acceptance Testing: Acceptance Testing is performed by the client and verifies that the system is full fill the business requirements and as it is as per the needs of the end-user. The client accepts the website because all the features and functionalities work as expected. It is the last phase of the testing, after which the website goes into production. This is also called User Acceptance Testing (UAT).

2)Accessibility Testing: Accessibility Testing is determine that the website is accessible via through Internet Here, disability means deaf, color blind, mentally disabled, blind, old age, and other disabled groups. Various checks are performed such as font size for the usually ddisabledcolor and contrast color blindness, etc.

3) Beta Testing: Beta Testing is a formal type of website Testing that is carried out by the customer. It is performed in the Real Environment before releasing the website to the market for the actual end-users. Beta Testing is carried out to ensure that there are no major failures in the software or food product and it satisfies the food business requirements from an end-user perspective. Beta Testing is successful when the customer accepts the software.

4) Back-end Testing: Whenever an input or data is entered on the front-end webpage, it stores in the database and the testing of such database is known as Database Testing or Backend 106 Testing. There are different databases like SQL Server, MySQL, Oracle, etc. Database Testing involves testing table structure, schema, stored procedure, data structure, and so on. -

251 -

5) Browser Compatibility Testing:- It is a subtype of Compatibility Testing (which is explained below) and is performed by the testing team. Browser Compatibility Testing is performed for web applications and it ensures that the software can run with a combination of different browser operating systems. This type of testing also validates whether the web application runs on all versions of all browsers or not. And these website is compatible with any browser.

6) Compatibility Testing: It is a testing type in which it validates how software behaves and runs in a different environment, web servers, hardware, and network environment. Compatibility testing ensures that web applications can run on a different configuration, different databases, different browsers, and their versions. Compatibility testing is performed by the testing team.

7) Component Testing:- It is mostly performed by developers after the completion of unit testing. Component Testing involves testing multiple functionalities as a single code and its objective is to identify if any defect exists after connecting

System Security Measures

System Security Measures:

We take System Security measures seriously to protect this website from data breaches and various phishing attacks and assure you that unauthorized persons can access the website information with the purpose of mala fide motivation.

To protect the website and enhance the Website regarding its security and data processing efficiency we follow all security measures and check all components (hardware and software) and their durability which helps to run the website over the long efficiently try.

Implementation, Evaluation, and Maintenance

Implementation:

Implementation refers to the post-sales process of guiding a client from purchase to use of the software or hardware that was purchased. This includes requirements analysis, scope analysis, customizations, systems integrations, user policies, user training, and delivery. In the current system, we find more bugs and errors, so these bugs and errors get solved in the new system.

As this website is based on EBSB Club Which Provides Detail information about Odisha State at the time of implementation we assure you that every piece of information should be correct and authentic.

Evaluation:

Evaluation is a process that critically examines a program. It involves collecting and analyzing information about a program's activities, characteristics, and outcomes. Its purpose is to make judgments about a program, to improve its effectiveness, and to inform programming decisions. The evaluation process includes the study of the existing system and its drawbacks and the various option to improve the system. the concentration should be on satisfying the primary requirements of the users. the system is evaluated based on In This Project, we evaluated the system which already exists. At the time of developing this project.

Maintenance:

After Developing this website we keep in mind various aspect such as analyzing performance fixing bugs removing viruses and preventing to maintain the website on daily increases the efficiency of the website regarding daily traffic comes on the website

Future Scope of the Project

Future Scope:

At the time of development of this project we remove some drawbacks from the already existing system and improve the efficiency of this new system after developing the website we observed that certain aspect needs to develop in the future which are

- We can Include Quizzes related to Odisha State Which increase the knowledge of Students.
- We can develop a Virtual Gallery of Every Page which Provides only theoretical information regarding the Diversity of Odisha
- We can Develop a tour Planner page on this website so the student can estimate the basic budget whenever they are willing to visit Odisha.
- In the Future we can Create a page on which students can Find The Similarity Between Both States.

These are the various aspects that should be considered regarding the future scope.

Suggestion and Conclusions

Conclusion

We Have to Develop This Website By Using HTML CSS and PHP and to connect the form to the website we use MYSQL this website is a dynamic website that will provide information about Odisha state in detail and provide a facility for registration to students so they can become part of this club and Nodal officer of this club can easily know the name of the registered student so it helps to contact with them at the time of organizing various program under the club. This Website has d ailed information. which explains the Unity In Diversity Very Well. No need to visit many websites for information regarding various aspects of knowledge that we have gained during developing the website not help in exams but also in the future as well.

A
PROJECT SYNOPSIS
ON

“Ek Bharat Shreshta Bharat Club”

Submitted to

G. S. COLLEGE OF COMMERCE & ECONOMICS, NAGPUR
AUTONOMOUS
In the Partial Fulfillment of

B.Com. (Computer Application) Final Year

Synopsis Submitted by

Shailendra Singh
Gaurav Kshirsagar

Under the Guidance of Pravin J. Yadao

Shiksha Mandal's
G. S. COLLEGE OF COMMERCE & ECONOMICS, NAGPUR
AUTONOMOUS
2022-2023

1. Introduction: (Write 4 to 5 lines):-

Ek Bharat Shreshtha Bharat is an initiative taken by the central government to enhance interaction & promote mutual understanding between people of different states/UTs through the concept of state/UT pairing. The states carry out activities to promote a sustained and structured cultural connection in the areas of language learning, culture, traditions & music, tourism & cuisine, sports, and sharing of best practices, etc.

In this project, we will go to make a website that represents the Ek Bharat Shreshtha Bharat club of our college it consists of information about historical, cultural, natural, and several other information for example:- Tribal Communities in Odisha, Etc.

This Website will help the college club administration to manage the registration of students and helps to know about Odisha state in detail because all the important information regarding the state will be available on the club website so we are only required to give information to students that such website of college club exists, and they can visit the website to know more about the initiative of college club and the program is taken by the club.

2. Objectives of the project: (Write only 5 points)

- I. To provide information about Ek Bharat Shreshtha Bharat Initiative.
- II. To provide a digital platform to the college club.
- III. To make the students aware of Ek Bharat Shreshtha Bharat initiative.
- IV. To increase participation.
- V. To Ease the process of EBSB Club.

4. Project Category: Dynamic Website

5. Tools/ Platform/ Languages to be used:

To make the website of the “Ek Bharat Shreshtha Bharat club ” we are going to use the following technology and languages:-

- I. **Languages:-** HTML, CSS, PHP-MYSQL, Javascript.
- II. **Platform:-** Visual Studio Code, Sublime text editor.
- III. **Other Technology:-** Bootstrap etc.

6. Scope of future application: (Write 4 to 5 points)

This project will help in the following aspect in the future:

- I. It will make the registration process for the club easy.
- II. Students can get information about the club at their fingertips.
- III. No need to contact physically to the authority of the College club.
- IV. Makes information available digitally to everyone.
- V. Eliminates the creation of registration of Google Forms for each different event.
