

## Webinar on "Importance of C# (sharp)" in software development"

- 1) Date: 23rd October, 2021
- 2) Title: Importance of C# (sharp)" in software development
- 3) Resource Person : Prof. Preeti N. Rangari
- 4) Name of Moderator :- Dr. Nusrat Hirani

### 5) Brief about the theme of your webinar:

The webinar was about the scope of C#.with .Net. C# is often used to develop professional, dynamic websites on the .NET platform, or Open-source software. This language is object-oriented; it is often utilized to develop websites that are incredibly efficient, easily scalable and a breeze to maintain. C# might just be one of the best programming languages for gaming. This language is heavily used to create fan-favorite games like Rim world on the Unity Game Engine.

- 6) Number of participants: 240
- 7) Number of participants from other institutes: 65

### Difference between c++ and c#

- | C++  | C#   |
|--|--|
| 1. In c++ first character of the main method is small. | 1. In C# main method is always capital.              |
| 2. In c++ program is start with #include statement.    | 2. C# program is start with using System namespaces. |
| 3. Pointers are used in c++.                           | 3. In C# pointer features are dropped.               |
| 4. In c++ web application is not develop.              | 4. In C# we develop both web and mobile application. |
